## **Hawaii is the only state of the United States that:**

- is not geographically located in North America
- grows coffee
- is completely surrounded by water
- is totally an archipelago
- has a royal palace
- does not have a straight line in its state boundary

- Hawaii's tallest mountain, Mauna Kea stands at 13,796 ft (4,205 m)

**Sunset in Kona.**  
The colors of the  
sunset are partly  
due to vog

The climate of Hawaii is typical for a tropical area
