HYDE PARK In LONDON

Every year millions of Londoners and tourists visit Hyde Park, one of the capital's <u>eight Royal Parks</u>

Hyde Park is <u>the largest open space</u> in London extending 1.25 mi east to west and half a mile north to south.

Originally part of Westminster Abbey, it was taken over by Henry VIII in 1536 and became a royal <u>deer park</u> before eventually being opened to the public by Charles I in 1635.

One of Britain's Royal Parks, Hyde Park covers some 350 acres, including a lake - the <u>Serpentine</u> - that was built in 1730 and is popular for boating and swimming.

Suitably named <u>Grand Entrance</u>, the main entrance to the park is a triple archway built in 1828

Other highlights include the wonderful <u>Diana</u> <u>Memorial Fountain</u>, a spectacular structure made from 545 pieces of Cornish granite and designed to reflect the life of Princess Diana.

<u>Hyde Park's Speakers' Corner</u> has acquired an international reputation for demonstrations and other protests due to its tolerance of free

speech.

The 7 July Memorial in the park commemorates the victims of 7 July 2005 London bombings.

One more advantage is Hyde Rark is <u>free to enter</u>.

Today, it's one of London's most popular attractions, and whether you're there for a gentle stroll, a picnic or some serious sightseeing, <u>it should be a must-see on your</u> London "to do" list.

Thank you for attention
