- **League Tables**
- **Nobel Prize Winners – 82**
- **Global Outreach**
- **The Cambridge Phenomenon – largest Technology Cluster in Europe**

'CAMBRIDGE PHENOMENON'

1960	Cambridge Consultants & others [brought up by Clive Sinclair]	'CONSULTANCY WAVE'
1965	Wilkes, Atlas 2 ICL	CAMBRIDGE = 'CAD CITY'
1977-85	Sinclair & Acorn → independent software vendors	HARDWARE → SOFTWARE
1988-99	Convergence of computers & communications, ANALYSIS, etc.	CAMBRIDGE COMMUNICATIONS PHENOMENON

Up to this point (and still) largely start-up companies which don't do research and don't make much money; University welcomes them because Enterprise & Development are good.

1991-99	Arrival of BIG companies Xerox, SRI International, AT&T, Olivetti, Hitachi, Microsoft, BP, Unilever	CAMBRIDGE PHENOMENON
---------	--	---------------------------------

Big companies do do research & contribute intellectual as well as commercial & financial strength to the University.

1998-99	~ 1200 companies with 30,000 employees 700 companies in Biotechnology 500 companies in hitech/communications	CAMBRIDGE NETWORK
---------	--	--------------------------
