Kazakhstan at a glance

- ▶ **Stable political and macroeconomic environment:** Despite Kazakhstan's economy experiencing a substantial slowdown as a result of the world economic and financial crisis, Kazakhstan achieved positive GDP growth of 6% in 2013. The Government launched large-scale Program for Accelerated Industrial Innovative Development, aimed at industrialization and diversification of the Kazakhstan economy.
- ▶ **Competitive geographic location:** Kazakhstan is located at a unique cross-roads between Europe, three BRIC countries (Russia, India, China) and the Middle East
- ▶ **Significant market:** The Customs Union between Kazakhstan, Russia and Belarus represents a market of 170 million consumers.
- ▶ **Constantly improving regulatory environment:** Kazakhstan aims to become one of the 30 most developed countries in the world and is making continuous progress in improving its regulatory and institutional environment. Recent reforms encompass taxation, customs and currency regulations. As a reflection of progress, Kazakhstan was ranked as the world's top reformer by the World Bank in its Doing Business 2011 survey, and in 2012 moved from the 56 position to 49th.

One of the fastest growing economies

GDP - real growth rate: 6% (2013 est.)
 5% (2012 est.)
 7.5% (2011 est.)

The dominant source of national income remains the extractive industries, but Kazakhstan is progressively diversifying its economy, with significant support and incentives from the Government. Large opportunities exist for investors in services, non-extractive industries and infrastructure
