AUDING

- Well, now listen to the text and try to understand it.
- British people are very fond of sports. Sport is part of their normal life. The two most popular games are football and cricket.
- Football, also called soccer, is the most popular sport in the United Kingdom. England, Wales, Scotland and Northern Ireland have their own Football Leagues and national teams. Games are played on Saturday afternoons from August to April.
- Cricket is considered to be the English National game. Its rules are very complicated. It is played by two teams of eleven men each, the player at a time tries to hit the ball with a bat. Golf is the Scottish national game. It originated in the 15 century.
- Those are the most popular kinds of sport in the UK. But there are many other sports such as rugby, swimming, golf, horse-racing and the traditional fox-hunting,
- Questions:
 - 1. Are British fond of sports?
 - 2. What is the most popular game in the UK?
 - 3. Do all the parts of the UK have their Football Leagues and teams?
 - 4. What is the name of the Scottish national game? When did it originate?

PRACTICE IN ORAL SPEECH

- Cricket is played on village greens and in towns/cities on Sundays from April to August.
- Teams are made up of 11 players each. They play with a ball slightly smaller than a baseball and a bat shaped like a paddle. Two batters stand in front of wickets, set about 20 meters apart.
- Each wicket consists of three wooden rods (stumps) pushed into the ground, with two small pieces of wood (bails) balanced on top. A member of the opposing team (the bowler) throws the ball towards one of the batters, who must hit the ball so that it does not knock a bail off the wicket.
- If the ball travels far enough, the two batters run back and forth between the wickets while the fielders on the opposing team try to catch the ball. The game is scored according to the number of runs, which is the number of times the batters exchange places.

FOOTBALL (SOCCER)

- ❑ Football is the most popular sport in England, and has been played for hundreds of years.
- ❑ In the English Football League there are 92 professional clubs. These are semi-professional, so most players have other full-time jobs. Hundreds of thousands of people also play football in parks and playgrounds just for fun.
- ❑ At its core, football is a game with two teams of eleven players, played over the course of 90 minutes. This period is split into two 45-minute halves. The objective of the game is to score more 'goals' than the opposition. The term 'goal' refers to two areas either side of the pitch, each one defended by one of the teams. A 'goal' is scored by depositing the ball into the opponent's area.

RUGBY

- It is similar to football, but played with an oval ball. Players can carry the ball and tackle each other. The best rugby teams compete in the Super League final each September.
- For many years Rugby was only played by the rich upper classes, but now it is popular all over the country. There are two different types of rugby - Rugby League, played mainly in the north of England, and Rugby Union, played in the rest of England, Scotland, Wales and Ireland. England, Scotland, Wales and Ireland, together with France and Italy, play in an annual tournament called the Six Nations.
- American Football derived from our game of Rugby also Baseball derived from the old English game of Rounders.

TABLE TENNIS

Table tennis, also known as ping-pong, is a **sport** in which two or four players hit a lightweight, hollow ball back and forth using **table tennis rackets**. The game takes place on a hard table divided by a net. Except for the initial serve, players must allow a ball played toward them only one bounce on their side of the table and must return it so that it bounces on the opposite side. Points are scored when a player fails to return the ball within the rules. Play is fast and demands quick reactions. A skilled player can impart several varieties of **spin** to the ball, altering its trajectory and limiting an opponent's options to great advantage.

ROWING

- The ROCAT is suitable for all kinds of recreational rowing, or racing, or just getting and keeping fit. It is equally at home providing some serious full-body aerobic exercise, or pottering up the creek, or riding a rough sea.
- With the ROCAT, you can feel in the mood for a row, pop the boat on your car, and just go – conditions are no longer so important. The boat will work fine on still water, but it was designed for open-water, or coastal rowing and is most fun on a big sea.
- Being quick and easy to dismantle, the 5 metre ROCAT can be **transported** with ease on a car, and stored in a garage.

MOTOR RACING

- Grand Prix motor racing has its roots in organised automobile racing that began in France as far back as 1894. It quickly evolved from a simple road race from one town to the next, to endurance tests for car and driver. Innovation and the drive of competition soon saw speeds exceeding 100 miles per hour (160 km/h), but because the races were held on open roads there were frequent accidents with the resulting fatalities of both drivers and spectators.
- Grand Prix motor racing eventually evolved into formula racing, and Formula One can be seen as its direct descendant. Each event of the Formula One World Championships is still called a Grand Prix. Formula One is still referred to
