

The image shows the front facade of a three-story brick building. The ground floor features a central entrance with a dark red door and a white portico above it. The portico has a triangular pediment and is supported by two black columns. The text on the portico is in red Cyrillic. The second and third floors have several windows with green frames. A faint, stylized logo is visible on the brick wall above the entrance.

A little history

The history of "Oil and Gas College" Orenburg city is closely connected with the development of the oil industry of the city and the region.

In the early 70-ies of geological exploration management of the Orenburg region was experiencing an acute shortage of qualified personnel. The newly discovered deposits were waiting young drillers technician, rig machinists, chemical technicians. analysis. At this time, our school was opened.

The College has a museum with works by students
