

My summer holidays

Last summer I spent my holidays in the country

I went to the forest and gathered mushrooms.

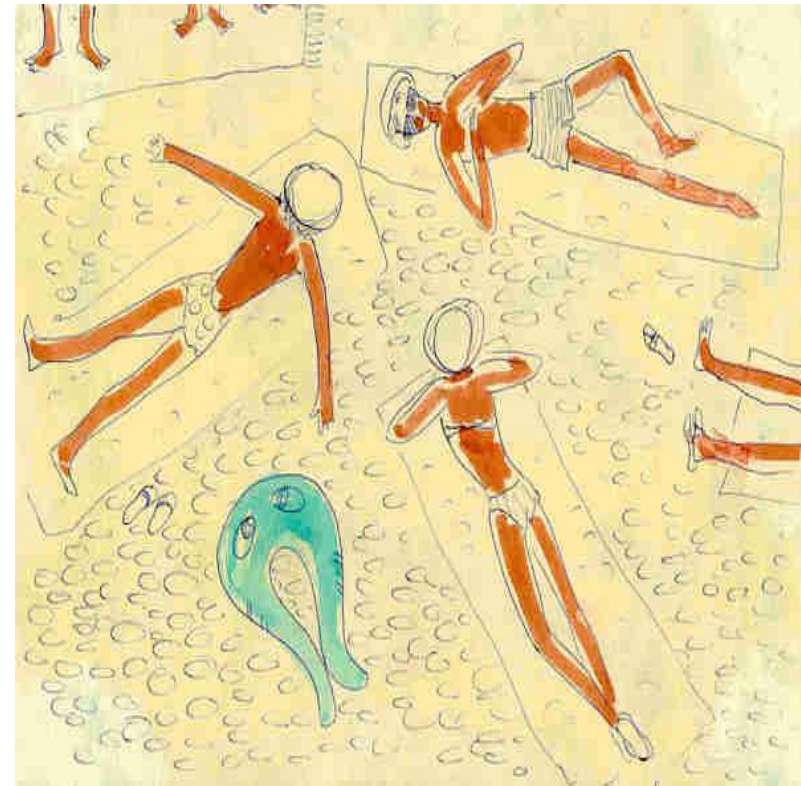

There were a lot of berries in the forest.

My family and I went swimming to the river.

There was a river near our cottage..

Every day we swam, sunbathed, played games and had fun.

We went fishing

Walked in the fields

Watched beautiful flowers

Listened to the birds' songs

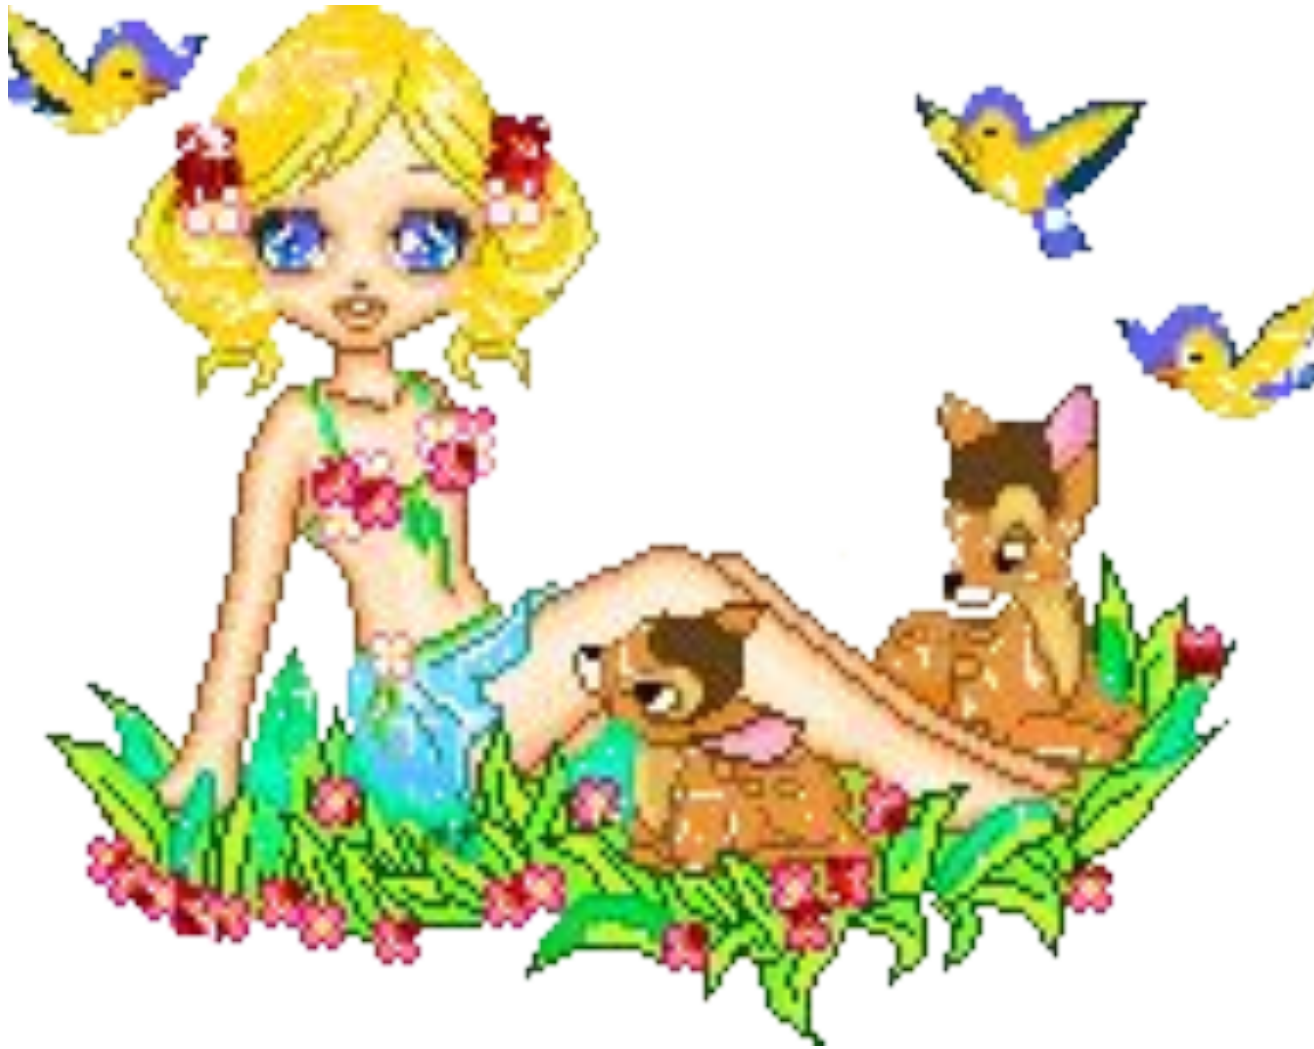

We made a fire, played the guitar and sang songs.

Watched the stars

I had great holidays.
