rave

Rave or **rave party** is a term first used in the 1980s and 90s to describe dance parties (often all-night events) with fast-paced electronic music and light shows.^{[1][2]} At these parties DJs and other performers play electronic dance music, including house, trance, techno and jungle (often collectively referred to as "rave music"),^[2] with the accompaniment of laser light shows, projected images and artificial fog.

Experimental music

Experimental music refers, in the English-language literature, to a compositional tradition which arose in the mid-twentieth century, applied particularly in North America to music composed in such a way that its outcome is unforeseeable. Its most famous and influential exponent was John Cage (Grant 2003, 174). More loosely, the term "experimental" is used in conjunction with genre names to describe music within specific genres that pushes against their boundaries or definitions, or else whose approach is a hybrid of disparate styles, or incorporates unorthodox, new, distinctly unique ingredients (Anon. [n.d.]a). Similarly, it has sometimes been used to describe "transethnic" music: the mixture of recognizable music genres. A quite distinct sense was current in the late 1950s to describe computer-controlled composition, and the term at that time also was sometimes used for electronic music and musique concrète. "Experimental music" has also been used in music journalism as a general term of disapprobation for music departing from traditional norms.

avant-garde

Avant-garde (French pronunciation: [avɑ̃ɡaʁd]) means "advance guard" or "vanguard".^[1] The adjective form is used in English, to refer to people or works that are experimental or innovative, particularly with respect to art, culture, and politics.

The world of music is around us. Music can leave us indifferent or it can provoke powerful and complex feelings. So music plays a very important role in people's lives. It reflects our mood and emotions. You can hardly find a person who doesn't like or need music, who never sings or dances.
