In this chapter Harry Potter and his cousin Dudley were attacked by Dementors. To survive Harry uses the spell "Petrus". But since the pupils are not allowed to use magic, he was expelled from Hogwarts. Under the influence of the Dementors, Harry is locked in the room. Harry is in despair. But suddenly, behind him come his friends from the organization "the Order of the Phoenix". They tell Harry what it will be on the court.

After the trial, Harry is declared innocent and given the right to continue to study at the school of Witchcraft and Wizardry. But Harry Potter still ahead of a lot of adventures.

The fifth part of the film "Harry Potter and the Order of the Phoenix" I liked the most. Here the characters are teenagers and the adventures more exciting, if you penetrate into the world of fiction. I got a great emotion!!!

Thank you for your
attention!!!
