

**My house**

A person is shown from the back, wearing a black backpack and a white neck-mounted sensor. They are touching their right hand against a white wall. The backpack contains a laptop and a power supply unit. The person is wearing a black t-shirt with white stripes on the shoulder. The background is a plain white wall with a light switch and a grey door or panel to the right.

Four strong walls,  
One, two, three, four,

Windows bright,

A painted door

Carpets, curtains,  
cushions gay,

beds and chairs  
we use each day
