

My school is a three-storeyed building with a lot of classroom, where we learn different school subjects.

The classrooms for primary school are on the first floor and the classrooms for the high school are on the second and third floors

Equipment.
Volleyball

Different sports competitions are held there. There is also a swimming pool in our school, where we swim in hot weather

The school canteen is one of the biggest and liveliest places of our school.

There are enough tables and chairs for all the students of our school to sit and enjoy their time there.

Our class is the friendliest at. On weekends we often go to museums, theatres, and at beginning of holidays we go to the mountains
