In the summer when the days are hot,
I like to find a shady spot,
And hardly move a single bit
And sit, and sit, and sit, and sit...

This tree is 250 years old

Behind this cow there is a farm in which there are many different animals: cows, goats, chickens, turkeys, peacocks and horses. Milk from the cows and goats is used in the preparation of cheese, sour cream and yogurt.

There are sculptures of goats and other animals near the farm.

This is a museum of animals which are very large. There are many large wild and domestic animals here.

Our hotel was located in the mountain, we descended to the sea by a special track.

From the window of our room we could see a waterfall.

Last summer I couldn't swim at all
I couldn't even float
I had to use a rubber tube
Or hang on to a boat;
I had to sit on shore
When everybody swam;
But now it's This summer
And I can!

**The water in the sea was very
clean. If diving with
underwater mask
everything was seen very
well.**

Do you know the capitals of
the countries?
