Наводнения*

- Ugra is experiencing severe flooding over the past ten years. Obi water flooded thousands of private houses and garden plots in Nizhnevartovsk and Megion, Surgut, right in the centre came from the banks of the river Saimaa.

- gional authorities and the Ministry of emergency situations claim that the situation is under control, but water continues to arrive, at risk are several major municipalities. Deprived of a roof over the head of KHMAO residents write letters to the President of Russia, and drew attention to the disaster.

Moscow, Kursk, Lipetsk, Voronezh, Yekaterinburg, Sochi — this is not a complete list of floods in recent two weeks.

Unprecedented rains have shown that the depth, it would seem that the usual problems with urban Russia — regardless of the budget and is known far not all. One of the symbols of the new municipal disaster were numerous videos, recorded swims residents through flooded streets.
