Usually, when I want somewhere -I want to go there because I saw some picture and realized that I should be there, so this will be a presentation of a set of pictures where I really need

sorry, no information about the capital, population, weather and so on.

So one day, I saw this picture in internet

I could not believe that it is on this planet, and there is.

But now I know that this is a very popular mountain Reynebringen
in Lofoten.

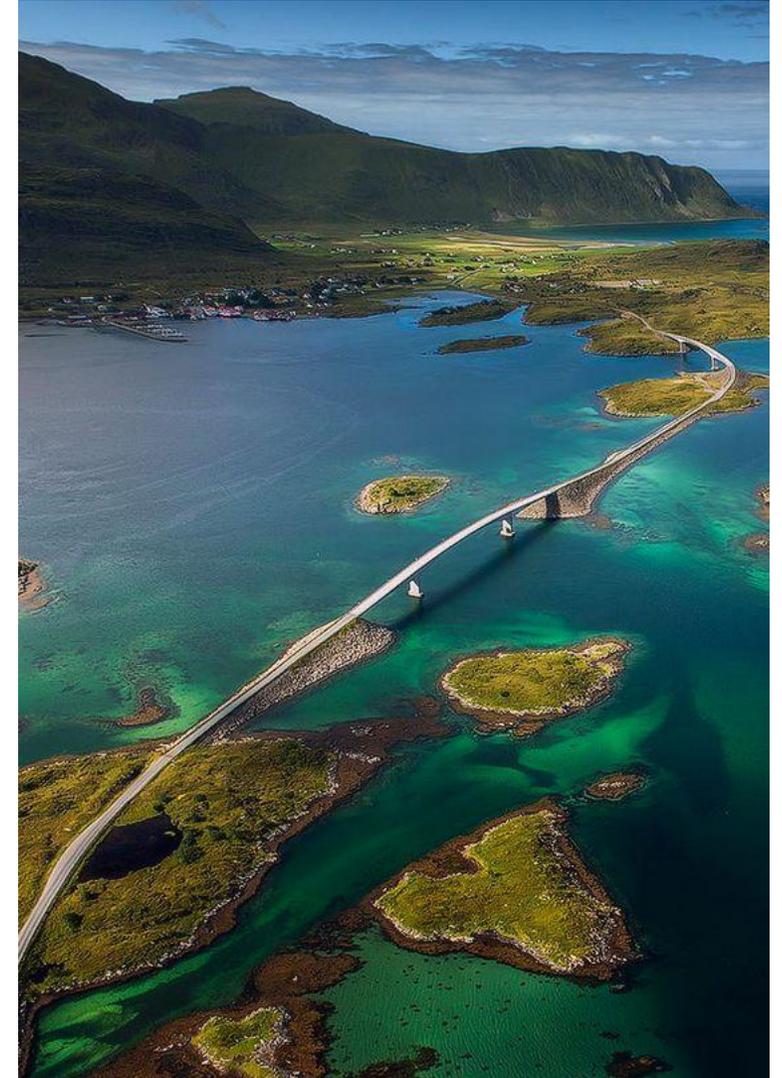

And once we started talking about Lofoten, I just show my favorite places there. This Polar Norway, it's cold, a lot of fishing villages and generally a paradise on earth

Here is a very beautiful place in the fairy tale, the great Atlantic road, it goes through the ocean. Its length is 8 km and for me it is unbelievable

incredibly beautiful fishing villages

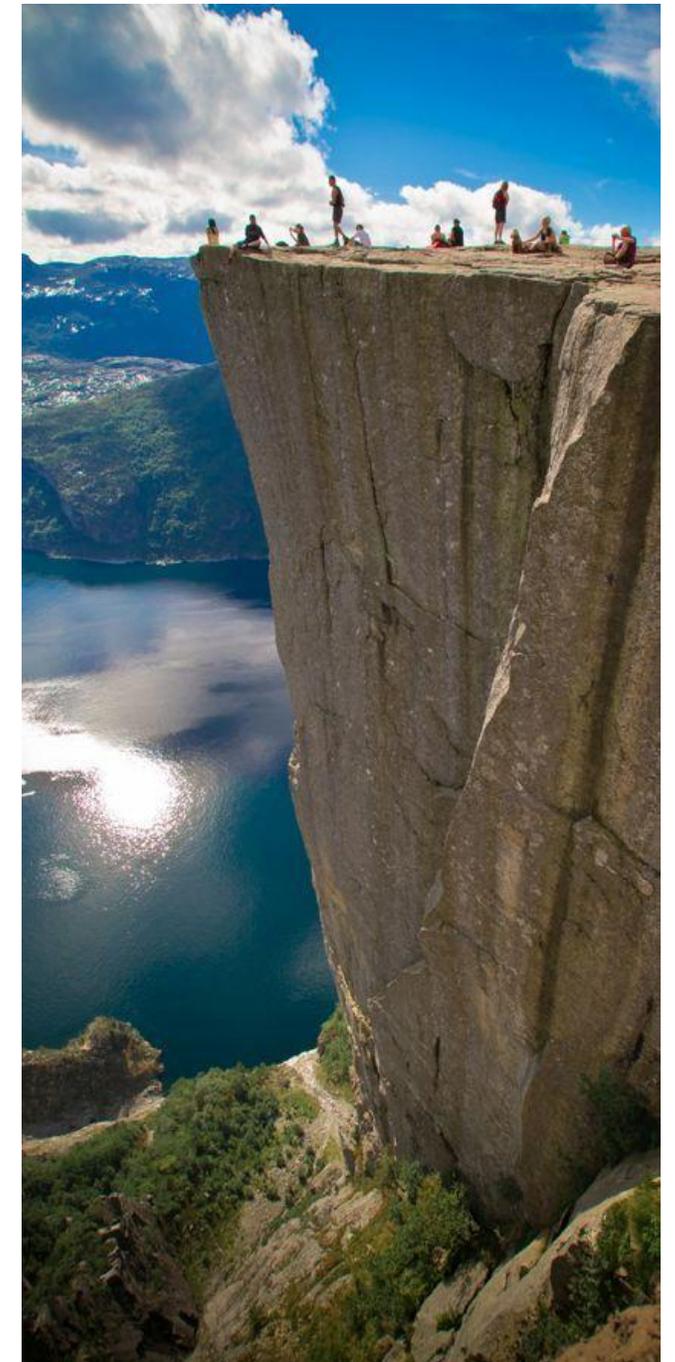

And, of course, of course
Since we are talking about
the polar Norway .On
Lofoten I can see my dream
come true - the northern
lights, even in summer. By
the way, this way it can be
seen only in photos. Just the
eyes can not see it
Therefore, I very much fear
that I see him but I do not
understand what it is

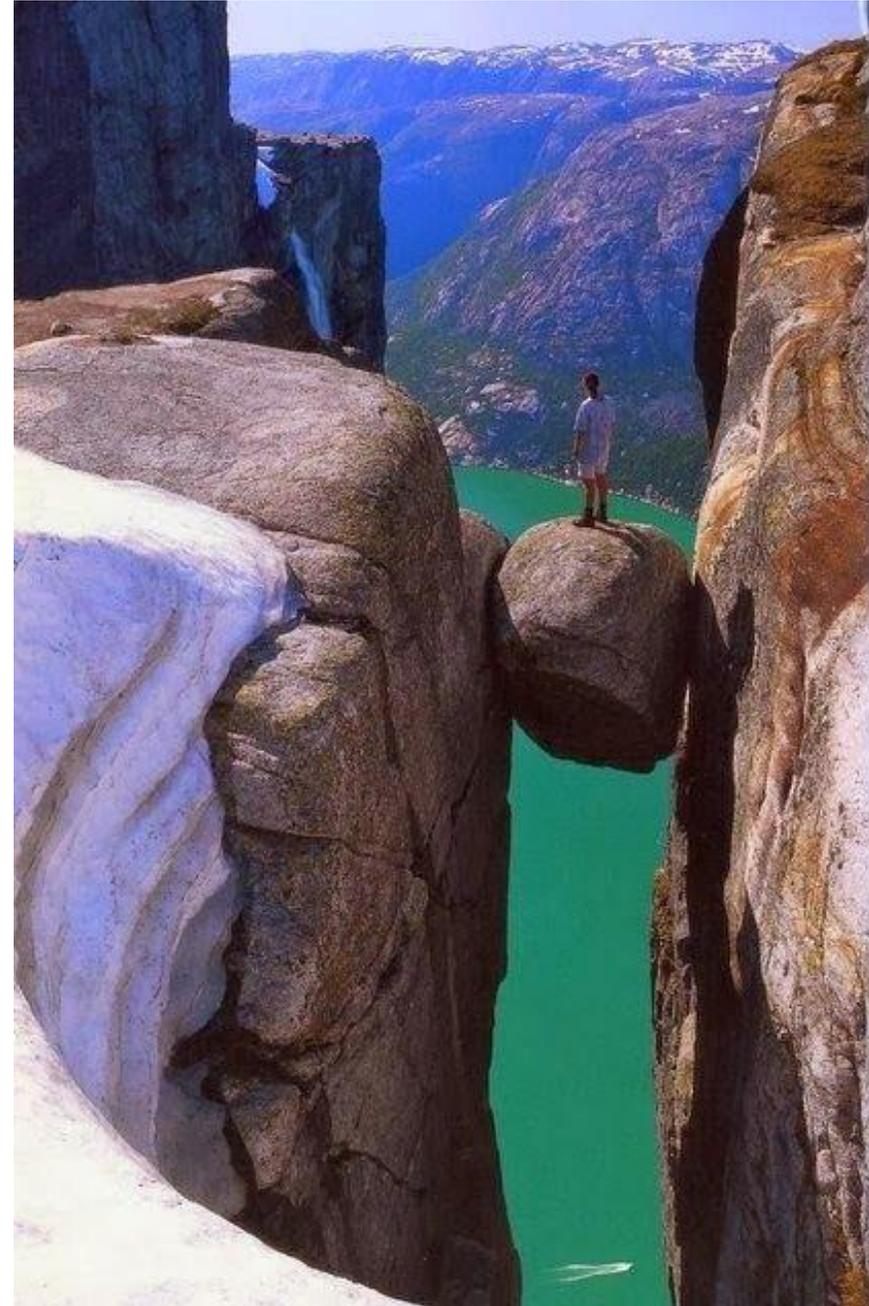

The next part is the Norwegian fjords. Part between Bergen and Stavanger. There are some very interesting and impressive places

All of these places is the steep mountains it .First is Preacher's Pulpit. This is a great mountain with an observation

The next place is the pea stone, which was stuck between the mountains. I really want to stand on it as do all people

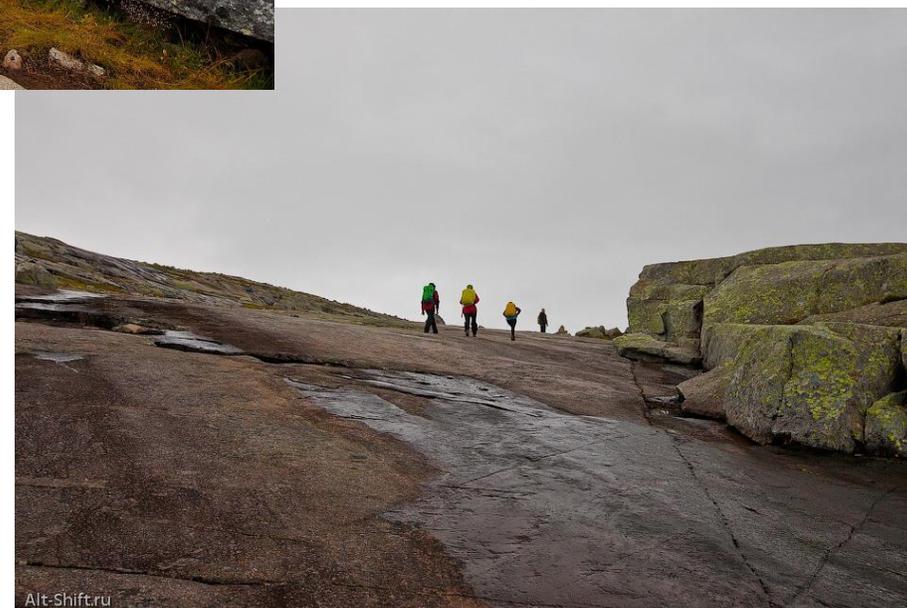

And finally the most ambitious and the most impressive place. It is the same trudnodustupnoe - language trol or troltung. That's my real dream, and for several years I meditate on this picture. I think that we should not hesitate because with age, getting there will be more and more difficult

Road to the troll language takes all day and is very heavy.

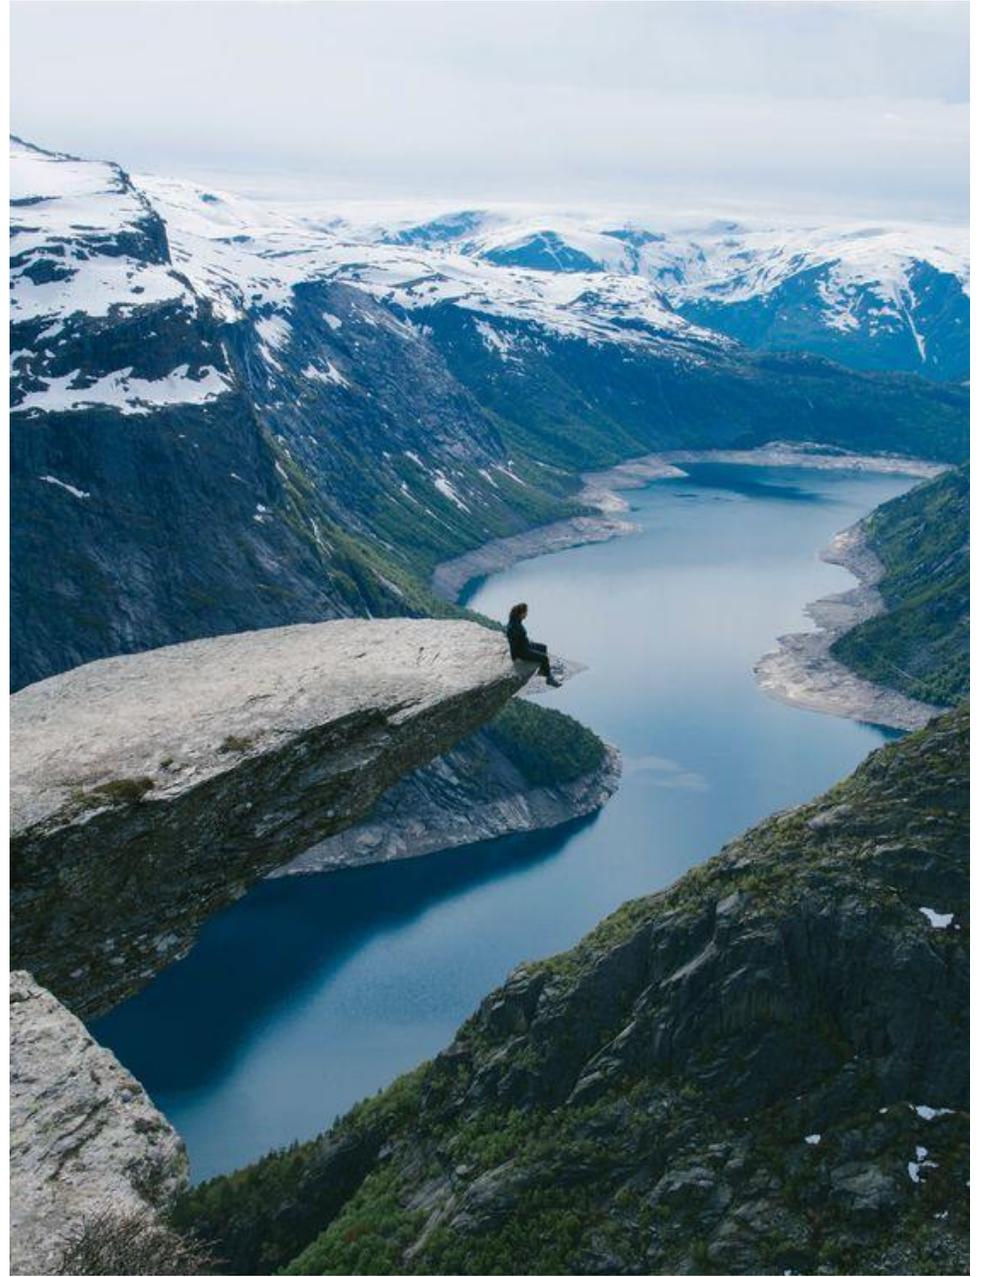

First you go up the old road from the cable car, and then through the mountains for about 4-5 hours

And then, if you survive, you will see it. The best place on the planet

in general it all, but I'll tell you about another place in norvegii.Eto zhelaznaya road in the city Flom. This is a very scenic route especially for tourists, and everyone says that it is very steep, but certainly not like the troll language

Famous for the railway so that you can ride it and enjoy the incredible views .It all

I think my favorite language troll certainly the coolest in this presentation

I want to show you one of my favorite instagram account .This gay lives in Norway and floats on kayake.On make stunning pictures
