

# Our Aircraft

The project of Astapenkov Aleksey and Ionova Kseniya

Once when  
we were in  
4 form  
there was  
the  
Aircraft  
competition

Our teacher -

Larisa

Nikolaevna

Ogloblicheva -

suggested us

to make a

plane.

At first  
we made o  
lot of  
little  
modules  
from  
paper.

Then we found the propeller, cut down hole in the foam plastic and placed the propeller into hole.

The main  
body of our  
plane was  
made with  
white, blue  
and red  
modules as the  
flag of our  
great country  
– Russia!

Then we placed the wings of our plane with flashlights to their places.

# Our plane was ready!!!

This is our  
classmates  
. They  
were our  
helps.
