

***OUR HOUSE
NOW AND
IN SOME
YEARS***

by Kseniya Gaivoronskaya

Form 6 "V" School №12

Teacher - Bogdanova G.V.

Everybody has a house.

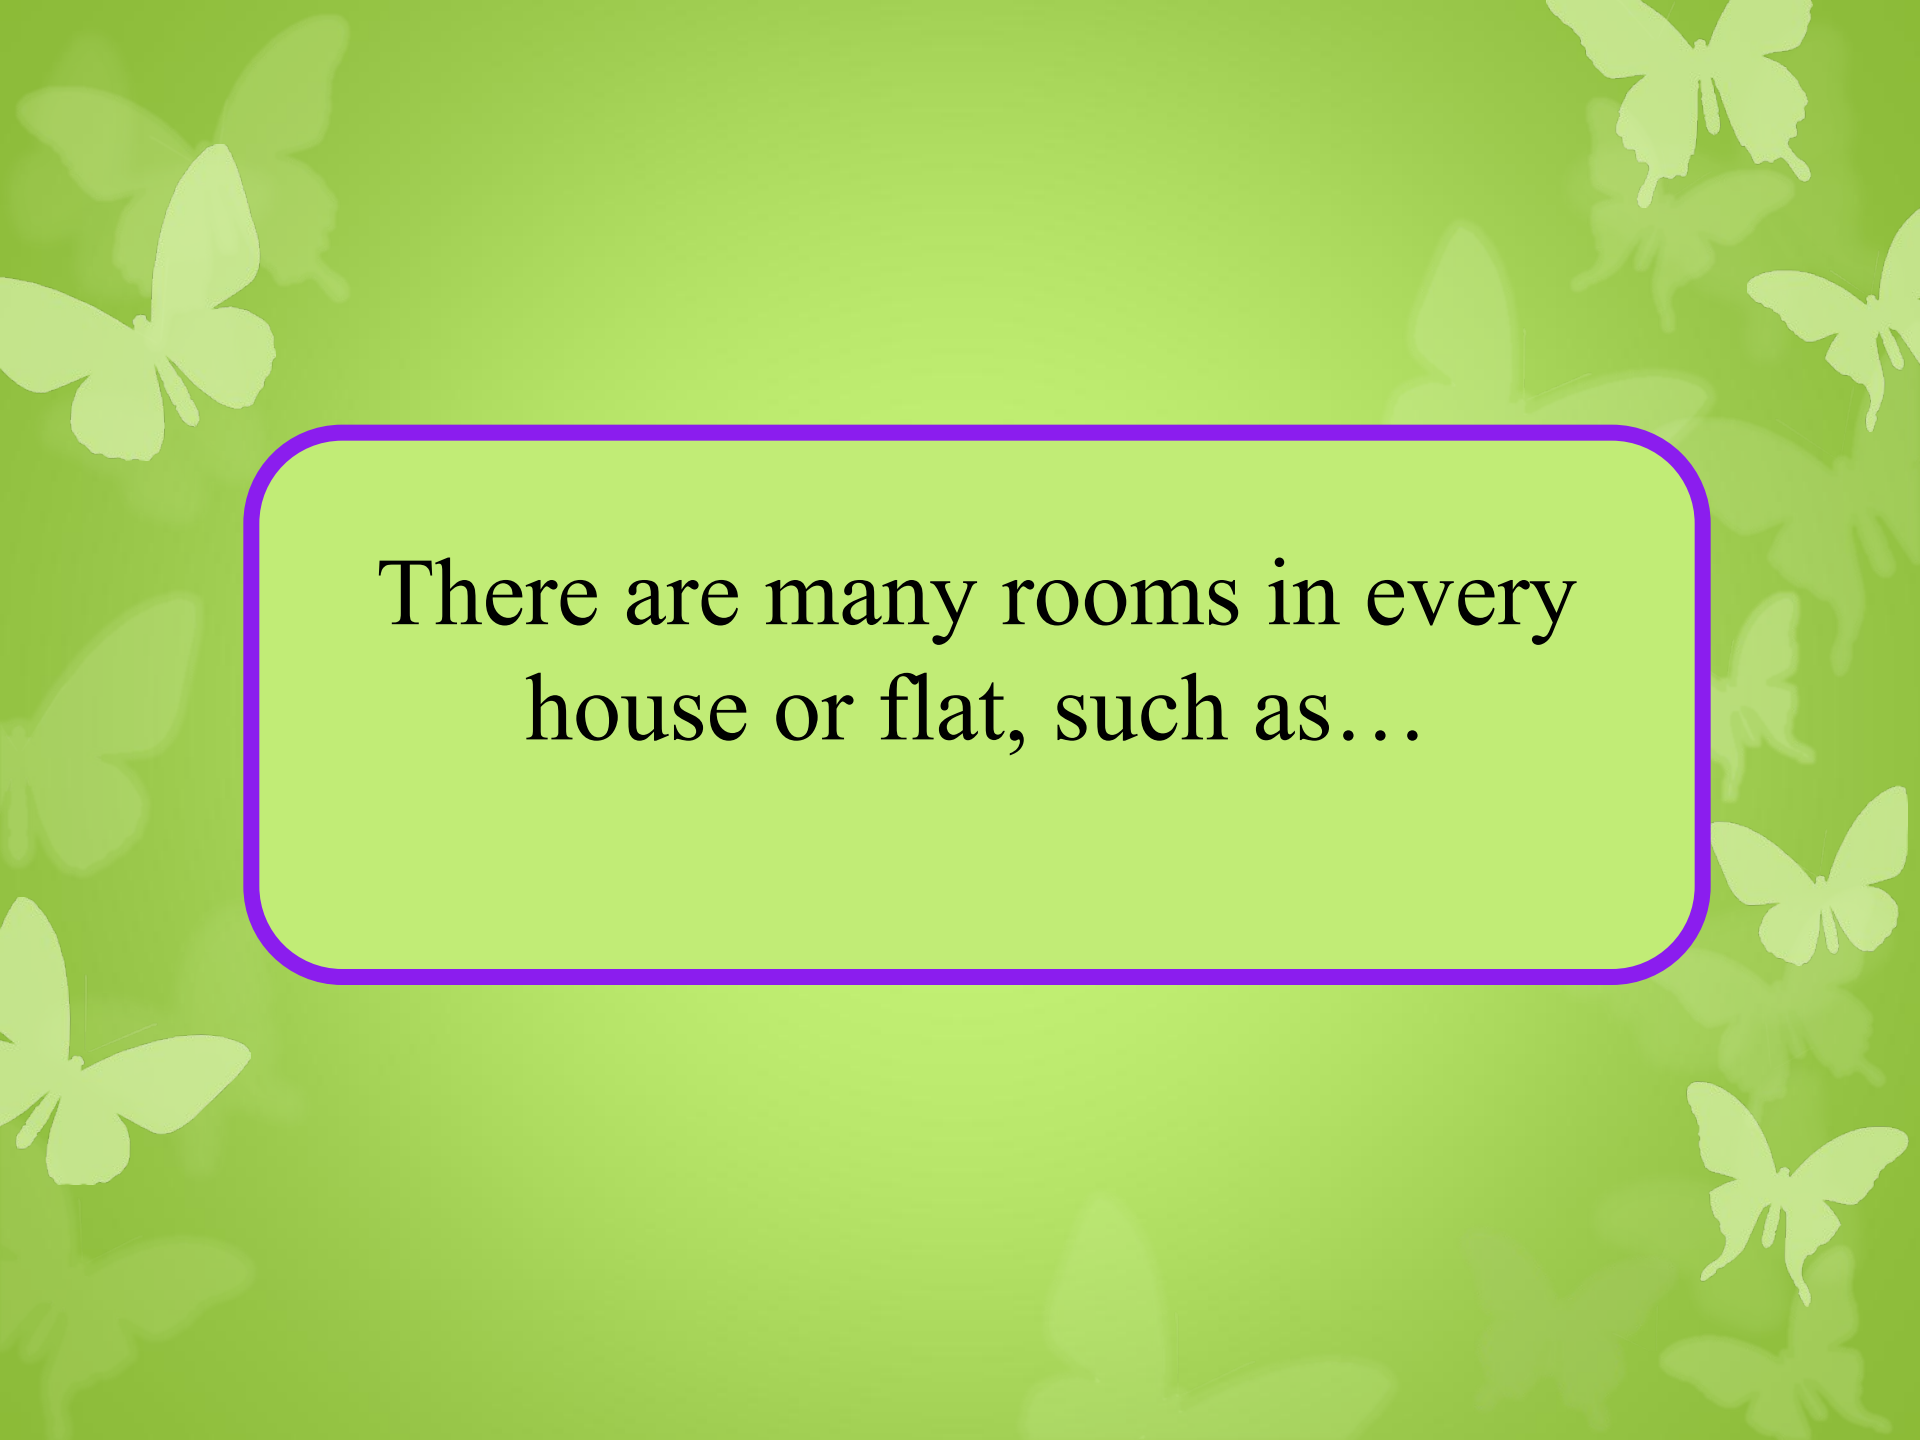

It may be a small house...

a large cottage...

or a flat in a multistoried house.

The background is a solid light green color with several white butterfly silhouettes scattered across it. The butterflies are of various sizes and orientations, some appearing to fly towards the center and others away from it. A prominent butterfly is in the top right corner, and another is in the bottom right corner. There are also several smaller butterflies in the top left and bottom left corners.

There are many rooms in every
house or flat, such as...

A living room with a sofa, a TV set, a bookshelf, a carpet, a table and a wall unit.

A children room with a computer, a bed, a wardrobe, a chair and many toys.

A bedroom with a big bed, a wardrobe,
a night-table and a chest of drawers.

A kitchen with a fridge, a stove, a cooker hood, a washing machine, a microwave and kitchen utensils.

A bathroom with a bath, a shower and a mirror.

A lavatory with a toilet bowl, a washbasin and a shelf for toilet paper.

But in some years, in the future, we'll be living in very unusual houses with solar panel and computerized control.

Everything around us will be computerized and filled with technology.

There will be only the best and the latest technologies in this house!

Everything will be perfect
for work and relaxation!

It may be so comfortable and beautiful

that seems unreal!!!

*THANK YOU
FOR YOUR
ATTENTION!!!*
