

Playing Golf

The intellectual Web Quest for young learners with videos, pictures and...

Introduction. There is a chance to discover what this game is, how to play golf and stay a real gentle sportive chap. Some rules, some etiquette principles, the main equipment and clothing.

TASK

Five teams (2-3 pupils each team) should find a piece of information about some attributes or rules of this interesting English game. They can use their own sources of information and should follow the procedure in *process*, getting information from the Internet sites.

Each team collects their data and fills in their special worksheet, watches video from golfdigest.com and inspires five speakers to report the whole thing to the class, adding *slides*. This work could be done during two lessons.

At the first lesson groups collect information, at the second one the speakers should be ready for the performance with slides.

The teacher has to be helpful and attentive to pupils' problems.

Good luck!

PROCESS

- Step 1

First of all let's enjoy a smart video film and
Brian Russell shows us the *golf goals*.
