My friend spent two weeks in Turkey with his family. From Turkey he is flying straight to the UK where my friend is spending a month with his pen friend. He is the first time abroad and he does not speak very good English. Now he is at the airport of Antalya. What should he do?

Here is some advice.

1. You should go to the registration.(Here you have to show your ticket and passport).
2. After registration go to check the baggage.(The weight limit is 23 kilos).
3. Then you need **to** go to the security check .(Take off your jackets! Empty your pockets! Get rid of all liquids).
4. After the security check go to passport control.(It will be quick).
5. Then you can go where you want.(Go shopping or visit **a** café).

BUT REMEMBER, YOU MUST NOT BE LATE FOR BOARDING!

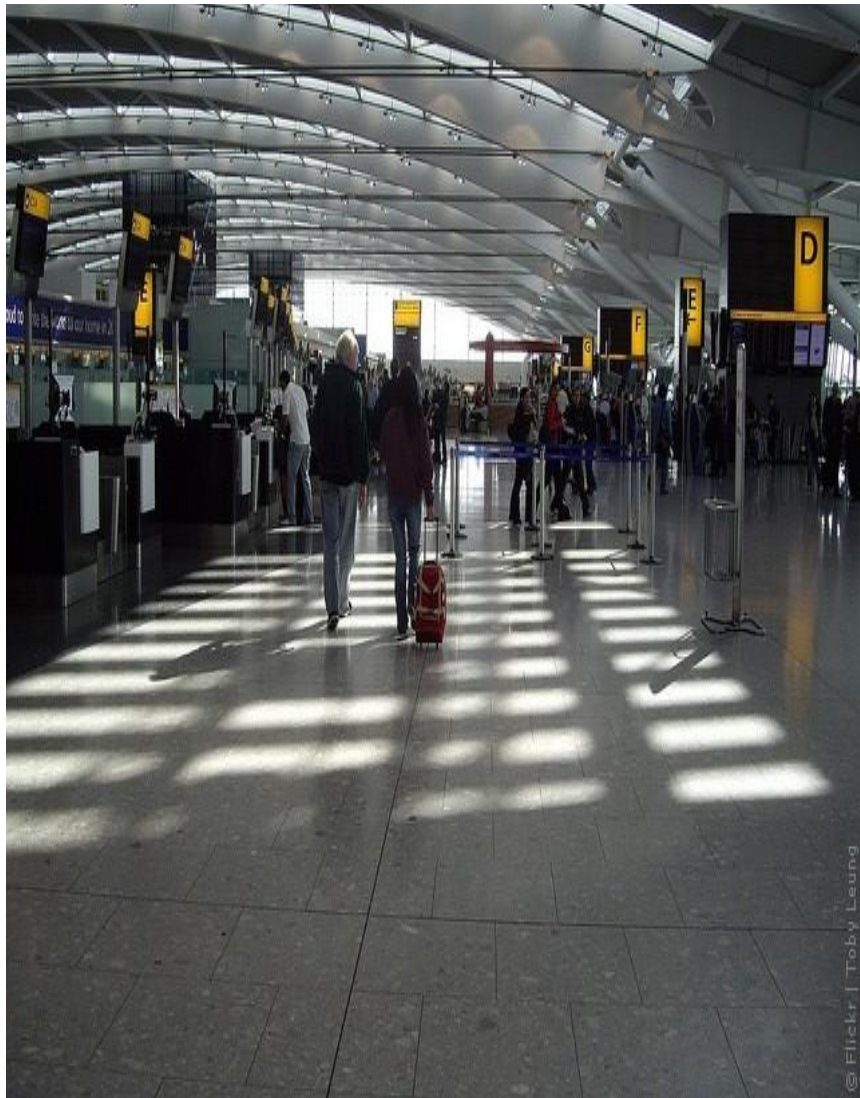

He has arrived in the UK.
Nobody has met him. How **can he**
call his friends on the phone? How
can he take out money from the
cash machine?

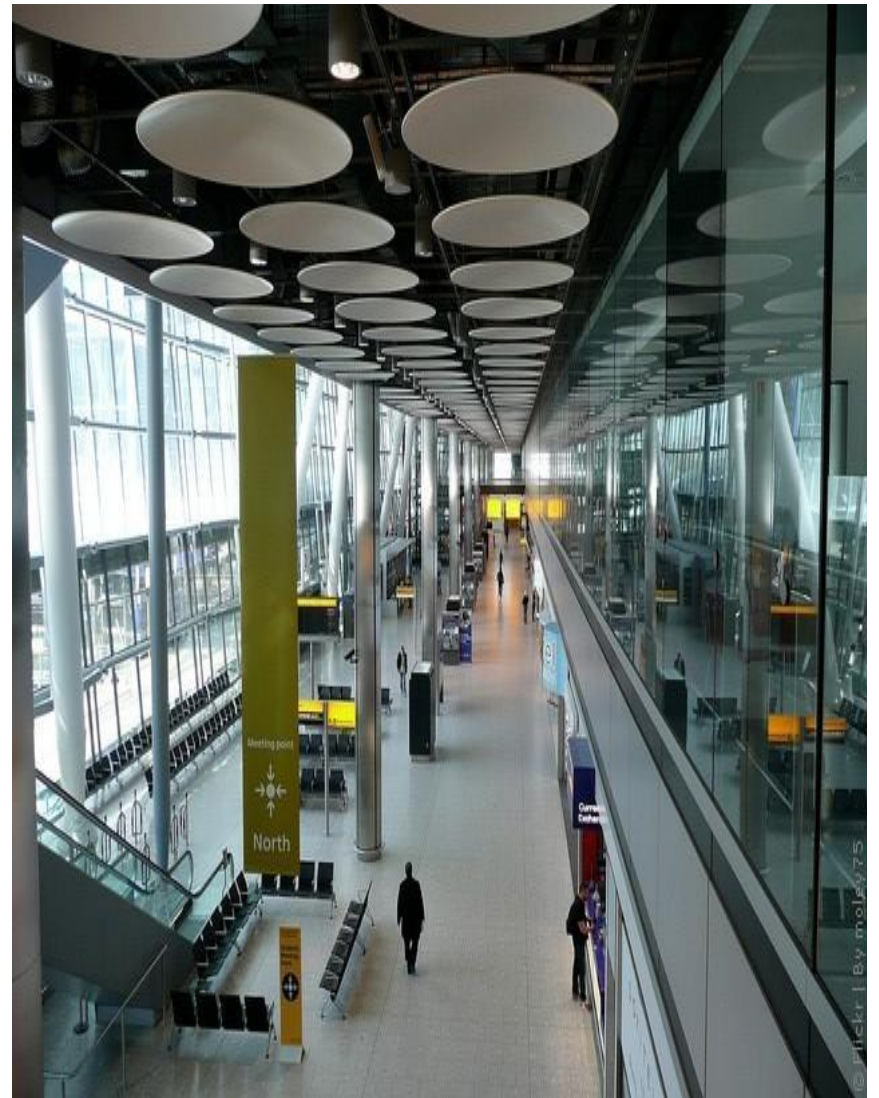

1. To make a call, you have to find a pay phone. (Dial zero and phone number of your host family).
2. To take out money, you have to find the machine. (Insert your card into **the** machine. Choose the language. Now enter your PIN code. If you enter the wrong PIN number three times, the cash machine won't return your card. Choose the sum of money you want to take out. Then wait for your card and your cash).

Have a nice trip my friend! =)
