

# ***REED BLOOD CELLS***

**Prepared by student of group 39fm4**

**Korotkova Kristina**

**Bryansk 2015**

# Erythrocyte

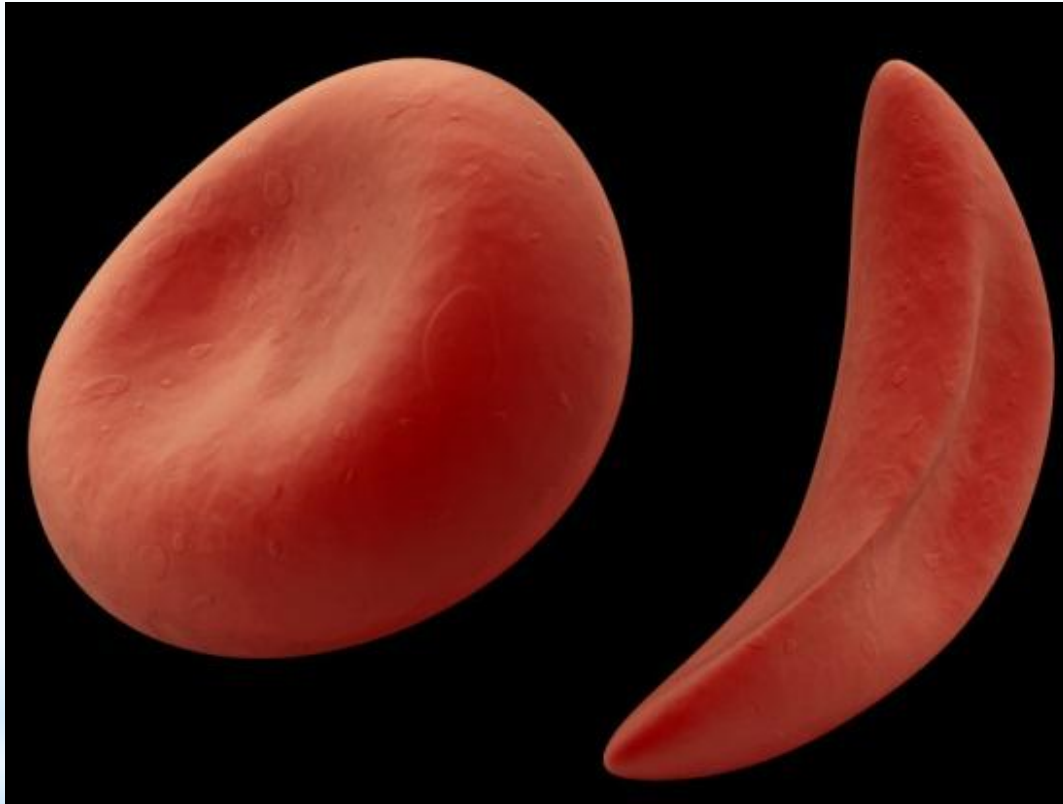

**red blood cells**

# Color

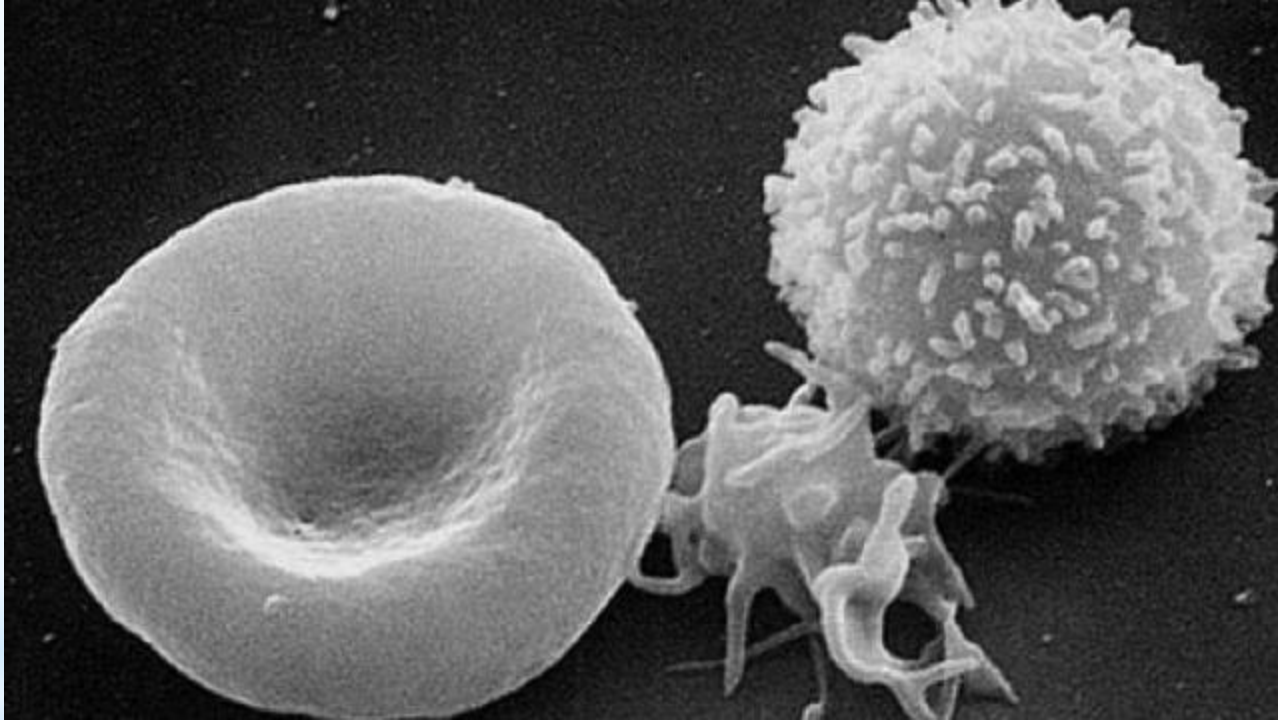

**of red blood cells**

# Form

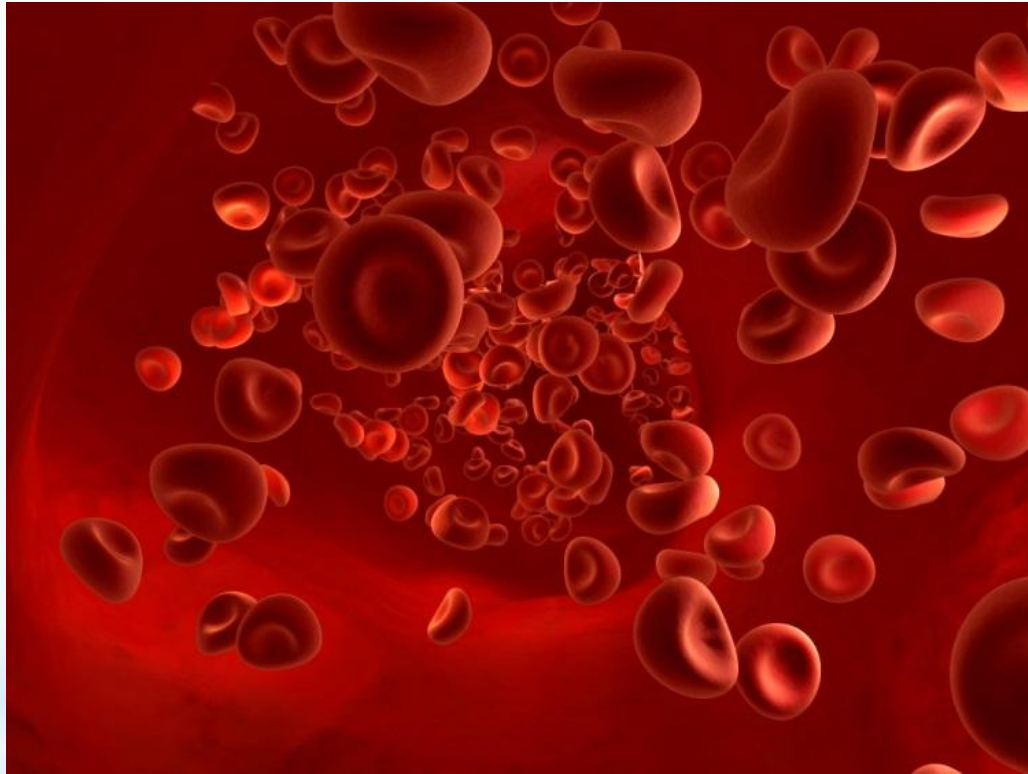

as a disk

# Life cycler

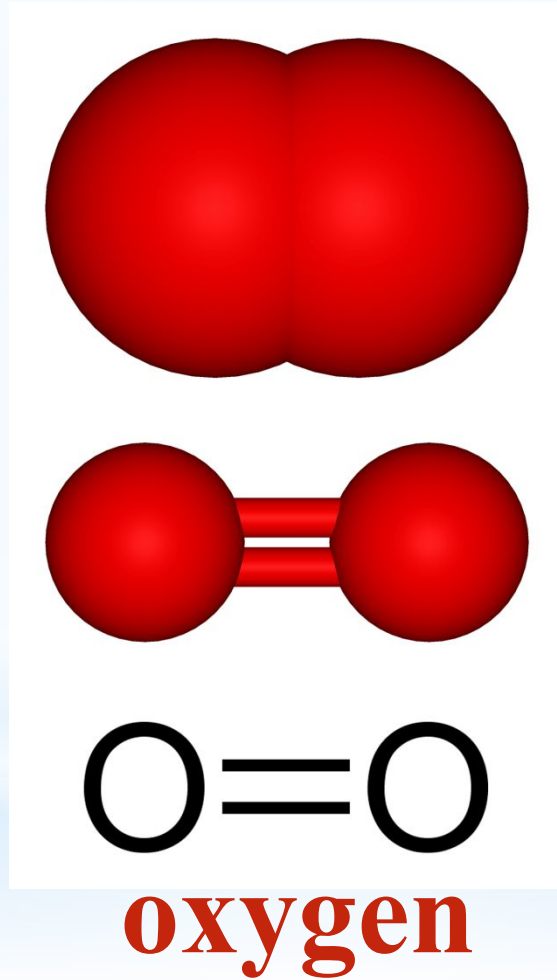

**120 days**

# Number

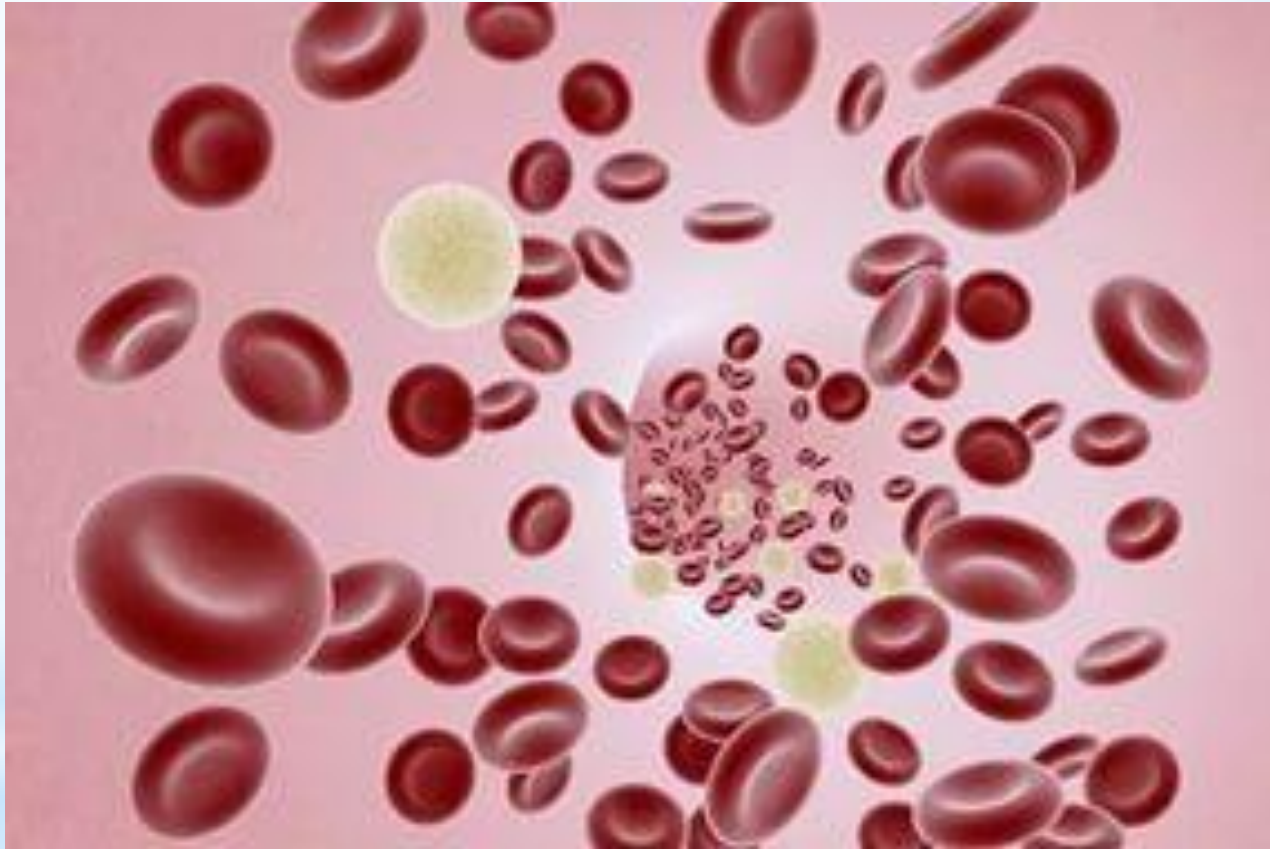

**5-6 millions per cubic millimetre  
of blood**

# Function of red blood cells

# Hemoglobin

**pigment**

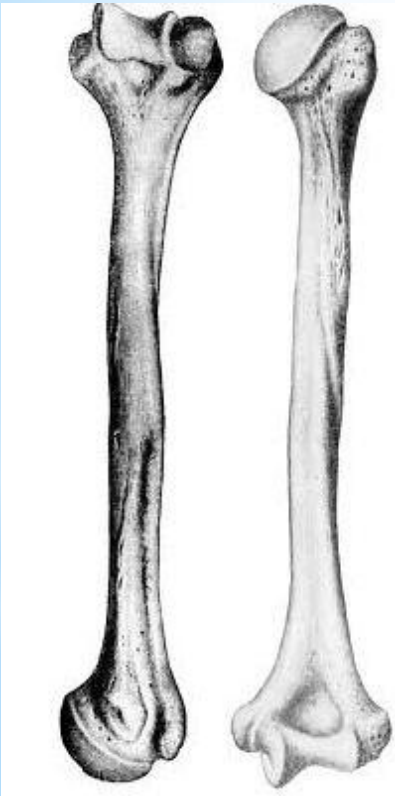

# Jan Swammerdam

**a Dutch biologist**

# Production

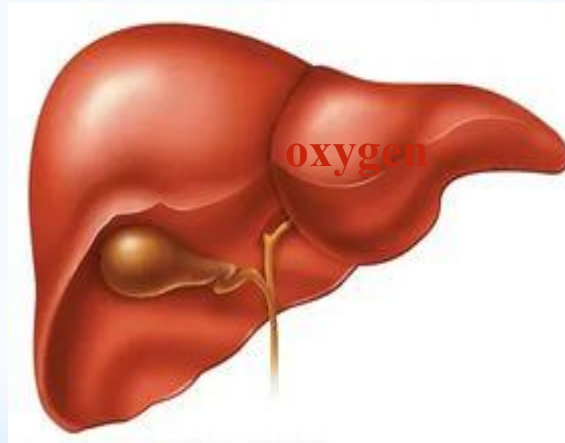

After birth

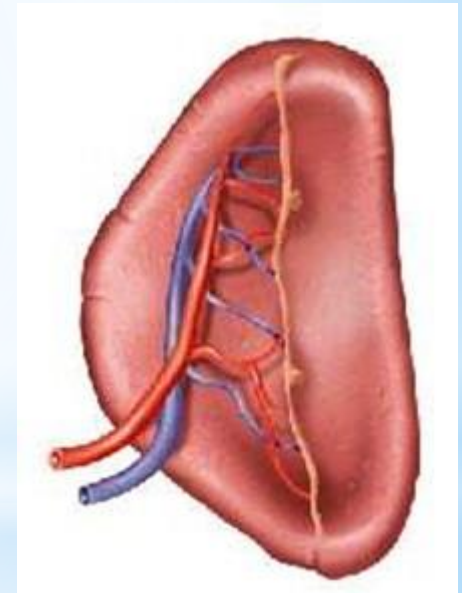

**bones**

Before birth

**liver**

**spleen**

**in liver and spleen**

# Iron need

**to replace old blood red cells**

# Oxygen

**the normal functions of organ**

# Thank you for your attention!
