

Saint-Petersburg

It's beautiful city ,Saint-Petersburg . But there is a problem.

Saint-Petersburg

And this problem is...garbage.

It's every where:in the parks , In the museums , near your house,
front of your yeas , under your legs.

Wherever you going ,you can see it.

Saint-Petersburg

That's a pity, because our city- is one of the most beautiful in Russia.
But it's one of the dirtiest in the country.
It's nice , isn't it?

Saint-Petersburg

If Saint-Petersburg looks like so , what will be in future.
And will future be for this city?

Saint-Petersburg

But we can stop it . Don't litter , and this great city will saved.
We can help our birthplace only with YOU, are you join us?
