Teacher : Maria Zatolokina

Do you remember your first teacher? I hope yes!!!!

*Have a look at this beautiful woman.
It is our first teacher-Nina Nikolayevna.*

*I want to tell you some words about my first teacher.
Nina Nicolaevna was the first to meet us at school. She has
always been a very cheerful, clever, generous and
hardworking woman!
She has give n us not only knowledge but a part of her nice
soul.
She has supported us in everything, understood our
problems.*

*She always made our lessons interesting and exciting.
What a great time we had together!!!*

*We meet Nina Nikolayevna every day. She has not changed.
The same eyes and the same smile... Sometimes our class
visit her, discuss different topics. We have a good laugh
together!*

*Thank you, Nina Nicolaevna!!!
We love you very much!!!*

THE SEMINAR

English Open Lesson

- Do You know what an English open lesson is?
- And we do! We've already given lots of such lessons in front of the teachers, guests from prestigious English universities.
- This time lots of English-speaking guests were supposed to come and see how we, young students, learn English.
- Great work was done by us and especially by our English teacher. A big program was created. A colourful presentation was made. Each of us created a mini-project. My classmates and I trained a lot, read and spoke a lot.
- We tried our best and showed that we CAN speak like Englishmen. Guests were very pleased to see our knowledge.
- Now we see that we succeeded in our work.
- I wish you to study English as well as we do and also to show such good results as we do.

Do you like your teacher?

We do!

Every day we meet teachers at school. It is not so easy to communicate with them.

But our teacher Svetlana Ivanovna is an exception to this rule. She is a teacher of Literature and Russian and we meet her every day. We like her very much. She is very kind-hearted, helpful, hardworking and friendly. We are lucky to have such a teacher. She isn't angry even if we are not right. We like her. She is the best teacher at our school!

by Dmitry Abrameshin

Have you ever seen a smoking teenager?

I have. I see them every day.

In Russia a smoking teenager is not an unusual thing. It's illegal to sell cigarettes to teens, but nobody doesn't care! And even a kid can buy it!

But why do teenagers smoke? Maybe, they think that it is cool. But if somebody has been smoking for a long time he/she gon' get a psycho-addiction and then a smoking addiction. But what about health? Smoking isn't cool, if you don't want to die from cancer of lungs.

Maybe now you haven't got any problems with your health, but then you will cough, you will have a short breath and you will get all the other problems connected with smoking and then you will be able to die...

I hope you will never smoke after reading this report, 'cause smoking is nothing cool, it's a legal drug and nobody needs bad health!

УВЛЕКАТЕЛЬНАЯ ЖИЗНЬ?

Do you like to wear a uniform?

I think that all the pupils at our school don't like to wear it. All of us want to be modern and cool. All of us want to express themselves in the way they wear.

Some pupils like to wear bright clothes and they don't want to dress the same clothes every day. But some pupils like to wear only black clothes or prefer other colours to be individual. Sometimes we can judge a person by the way he\she wears.

But we learn at a special school. And all the pupils at English schools always wear a uniform. And I think that we should agree with teachers and wear a uniform to be more serious, disciplined, devoted to our study because we have a lot of time to be different and cool after school.

I hope that after reading my article all of you will wear a uniform or will be thinking of wearing it.

The majority of pupils has favourite subjects. We have asked two or three pupils from every class.

<u>Subjects</u>	Classes					
	6	7	8	9	10	11
Biology				+		
Computer studying			+			
physics				+		+
P.E.	+		+			
History						
Safe work study					+	
Geometry				+		
Algebra		+	+			
Geography						
English		+			+	+

According to this table we can say that pupils like English more than other subjects.

My favourite places in Moscow

Everybody has favourite places. Many people think that the main place in Moscow is Red Square but my favourite place is the Gorky Park. I enjoy walking, eating ice-cream, having fun with my friends.

In the center of the city I often go to the book shops , for example, “Biblioglobus” because I am keen on reading and spend hours choosing books then reading them.

I like going to the Moscow museums. My favourite museums are the History Museum and the Tretyakov gallery.

I am fond of shopping. I enjoy going to the supermarkets where we can buy not only food but also many interesting things and enjoy drinking a cup of coffee at a café.

One of my favourite places in Moscow is our district Vihino. It's a place where I was born, where I live, have so many friends and spend so much time. I go to school there, play football and have fun with my friends. There a lot of interesting places, for example, cinema “Volgograd”. We often go there with my friends. Many of my friends go to the Art school and enjoy playing different musical instruments.

In conclusion I want to say that Moscow is the largest city and it has many interesting places to visit and enjoy. Everybody can choose such a place according to his\her taste.

Have you been to the theatre this year?

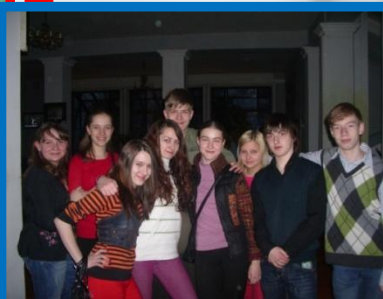

No?...But our class have been to the theatre four times!

We have watched some performances and a musical .

Maybe some of us don't like theatres but we should go there sometimes because it helps us in different ways.

We go to the theatres not only to watch performances but to spend time together with our classmates, to communicate and just to have fun. And that's why after a performance we always go to cafes and walk chatting and discussing different topics.

I hope that after my article you will go to the theatre and enjoy being together with your classmates as we usually do.

Football

Have you ever seen football matches?

Football is a very interesting game English in origin and it is played and watched all over the world .

Millions of people watch football or go to the stadium and support their favourite team.

I enjoy strong foreign football teams but my favourite one plays in Russian championships. There are four fans in our class who go to the stadium to support their favourite team and go for a walk with a specially coloured team scarf. Two of them are fans of Spartak and others including me are fans of CSKA. We regularly go to the stadium to watch football matches .

CSKA appeared in 1911 and since then CKSA has started to win. CSKA has a lot of medals and awards . CSKA was the first Russian team to win UEFA CUP in 2006. Now CSKA is the champion of Russia. I am proud of being a fan of such a strong team. I think CSKA is the best team in Russian championships .
