Victorovna

#The Singapore zoo,as known as Singapore zoological park, has opened at 1973.
It is famous for the concept of openness, but the most dangerous animals is behind the glass.

Red River Hogs

In the Singapore zoo is many unfogortable animals.As a Red River Hogs. They have coarse, bright red fur, black legs, ear tufts and a stripe of white running down their spines – which makes them the most striking of the 16 species of wild pigs.Red river hogs are social animals, and live in groups called sounders which can consist of up to 20 members.

Pygmy Hippo

No less unusual animal is Pygmy Hippo. The hippos spend a lot of time in the water, they can't swim and their bodies are too dense to stay afloat. Unlike the common hippo, whose eyes are at the top of their heads, the eyes of the pygmy hippo are on the sides of their heads. Their toes are also not webbed like their larger cousins.

White Tiger

"The white tiger exhibit at the Zoo features an interactive centre that puts the world of the tiger within a child's reach – most of our displays and interactive buttons are low enough for the little ones to press, read, listen to, see and touch". - Saied owner of the zoo.

Dining with Animals

Have you ever had breakfast with an orangutan? The Singapore Zoo is the only place in the world where you can have breakfast with not one but an entire family of orangutans!

Taking the 'treeway' from their free-range habitat next door, they'll be ambling in one by one as a trunk drawbridge is lowered to let them through. It's an amazing sight to behold!

It's Playtime

Whether they want to have a splashing good time in a watery playground, spend time with farmyard animals, take a rainforest challenge, visit the interesting residents of the kampung house or ride a wild animal carousel, there's always plenty to see, do and experience.

Zones of the zoo

Frozen Tundra, Wild Africa, Fragile Forest, Australian Outback, Great Rift Valley of Ethiopia, Treetops Trail, Gibbon Island, Primate Kingdom and Reptile Garden — it is so many zones in the Singapore zoo!

Shopping at the zoo

Take your time as you browse through our treasure trove of unique, huggable and meaningful rainforest-loving mementos to remind you of your trip. Kids will get excited over our vast collection of plush toys that foster deeper appreciation of nature through inscribed conservation messages.

#It is many things you can do at the zoo:
You can see wild animals and make photo
with them; You can have fun at the
playground; You can buy things, which will
remeber about your travelling. I wish you
unforgetable tour!

*#At now I want to show
you a short video about
Singapore Zoo.*
