

Space Tourist Adventure

The background of the slide is a dark, starry space scene. A large, grey, spherical planet or moon is positioned in the upper left quadrant. Below it, a reddish-brown, rocky landscape with several peaks and valleys stretches across the bottom. In the bottom right corner, there is a small, glowing yellow lightbulb icon with radiating lines.

It happened some days ago...

Fat Funny Fantastic F-planet

I was sitting near the window looking at the big old tree.

Suddenly a funny
fantastic f-man fell
from the tree.

He came to me and we made friends.

We decided to go to his Funny Fantastic
F-planet.

At first we flew through funny sunny rays.
They were smiling with us.

So we landed at the planet where the fat funny people lived.

Their houses were low and fat. They looked like their owners.

It was funny when we had dinner. Their plates were stars, their cups were small suns, their spoons were small moons.

Their dishes' names were Fat, Fattings,
Fatty, Fattious, Fattens. It was fun to drink
fattea.

After dinner we went to play footfatball.
There were big boots and a very small
round ball.

I really enjoyed to be on F-planet.
I think I will miss my new friends.
I am going to visit them someday.
