

A young man with brown, wavy hair is the central focus, wearing a grey zip-up hoodie over a striped shirt. He is looking down and writing in a notebook. The background is a classroom with a brick wall and other students who are out of focus, some appearing to be working at desks. The overall lighting is warm and indoor.

# Student's Life

A **student** is a learner, or someone who attends an educational institution. In some nations, the English term (or its cognate in another language) is reserved for those who attend university, while a school child under the age of eighteen is called a pupil in English (or an equivalent in other languages), although in the United States a person enrolled in grades K–12 is often called a student. In its widest use, student is used for anyone who is learning, including mid-career adults who are taking vocational education or returning to university.
