Comprehensive School

School Year 2011-2012

1. Put your Bank Card in to the machine.

2. The machine may ask which language you want to use.

3. Put in your secret Bank Card PIN.

Be careful!

Make sure that no-one can see you
do this.

Check that no-one is watching you.

- 4. The screen on the machine will give you a list to choose from:
 - Cash
 - Cash with a receipt
 - Balance
 - Mini-statement
 - PIN services

The words may not be exactly the same as the ones here. They can be different on different machines. You have to press the button alongside the one you choose, e.g. 'Cash'

- 5. The screen on the machine will then ask how much you want. These might be:
 - •£10
 - •£20
 - £50
 - •£100
 - £200
 - Any other amount
 The smallest amount you can take
 out from a cash machine is £10.
 The most you are usually allowed
 to take out each day is £300 for
 each Bank Account you have.
 Usually you can not take out any
 more than what is in the Account.
- Be careful!
- Some Accounts WILL let you take out more money than you have. But they may then charge you interest or a fee.

- 6. You then need to wait for a for a few moments.
 If you do not have enough money in your Bank Account the machine may say 'Insufficient Funds' and will then give you back your Bank Card OR it may ask you to take out a smaller amount of money. For example you can ask for £10 instead of £20.
- If you DO have enough money in your Bank Account, the machine will say your money is being counted and will then give you back your Bank Card.
- Important!
- You MUST always remember to take the Bank Card out of the machine and keep it safe.

 7. Next, you take your money when it comes out of the machine.

Take it

Take care to keep it safe!

- 8. If you asked for a receipt you need to wait for this.
- Take it with you when you go.

At any time you can press 'Cancel' to return your card.
