АУДИРОВАНИЯ

The kids come home and turn on the box. Parents have no control. And some of the programmes are really violent. There are terrible problems with reading and writing. Kids don't read books any more. They spend a lot of time just sitting and watching the telly.

Работа с текстом “TV or not TV”

Whether we realize it or not, TV plays a very important part in our lives.

It's the main source of information and a cheap form of entertainment for millions of people.

It's the window on the world which gives us an opportunity to “travel” all over the world , to “meet” different people and learn about their customs and traditions.

It has the power to educate and broaden our minds.

It helps us to relax after a hard day's work and escape from reality. It's a good company for people who live alone.

There' is always a great variety of programmes on TV: news and sports programme, talk shows and TV games, documentaries and feature films, concerts and theatre performances ...Of course, not all programmes are good.

Some people argue that television is a terrible waste of time. It makes us lazier. We stay at home instead of going out. We read less. We think less. We even talk less.

It' true that some TV addicts spend hours in front of the “box” watching whatever's on – from second-rate Mexican soap operas to silly commercials.
