

TERRORISM

**Terrorism
is a
criminal act
that
influences
an
audience
beyond the
immediate
victim**

The strategy of terrorists is to commit acts of violence that draws the attention of the local populace, the government, and the world to their cause

The terrorists plan their attack to obtain the greatest publicity, choosing targets that symbolize what they oppose.

The effectiveness of the terrorist act lies not in the act itself, but in the public's or government's reaction to the act.

For example, in 1972 at the Munich Olympics, the Black September Organization killed 11 Israelis. The Israelis were the immediate victims.
