

*The best of
all Possible
Worlds*

The continent
is Gondwana. From
it the splinter is the
mini-continent on
which there live
lemurs and
descendants of nice
pirates broke away

*Madagascar
is unique
large island
at coast of
Africa and*

Certainly, local «trans of the nature» is lemurs. According to a local belief, in these small animals

of the died people on the spirits who have voluntarily gone to the jungle move.

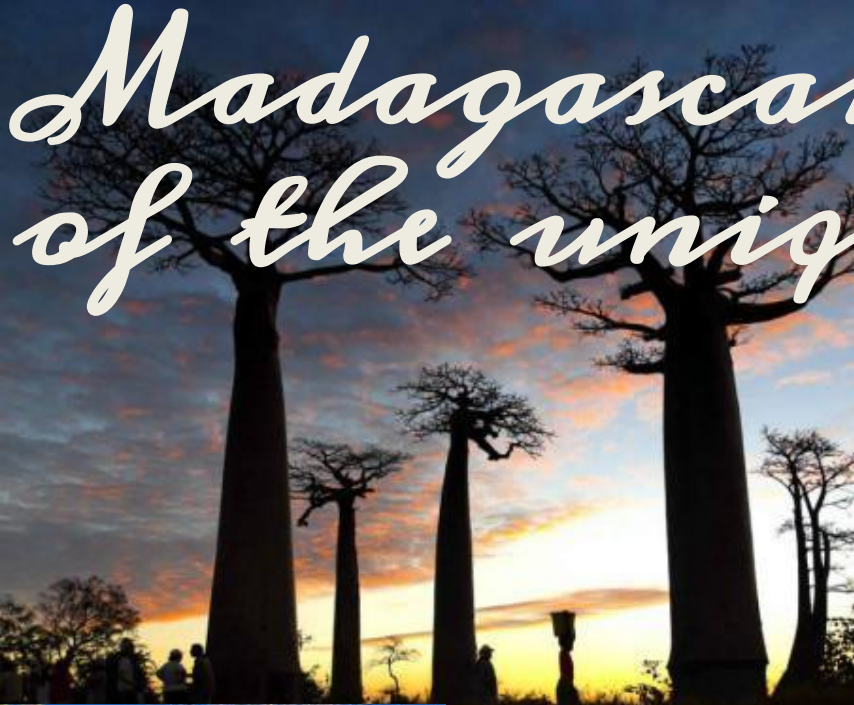

Madagascar is
island of life
treasures.

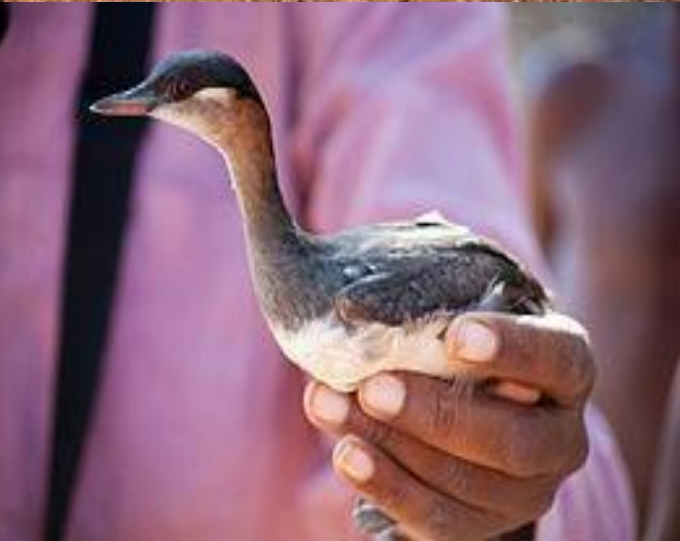

Thanks to
unique
conditions on
Madagascar
lived and the
types which
have died out in
all other parts

Madagascar is a cradle of the unique wild nature

Many of animals can be met only of Madagascar

Two seasons:
coast and
rainy summer
from November
to April more
cool and dry

winter from
May to
October.

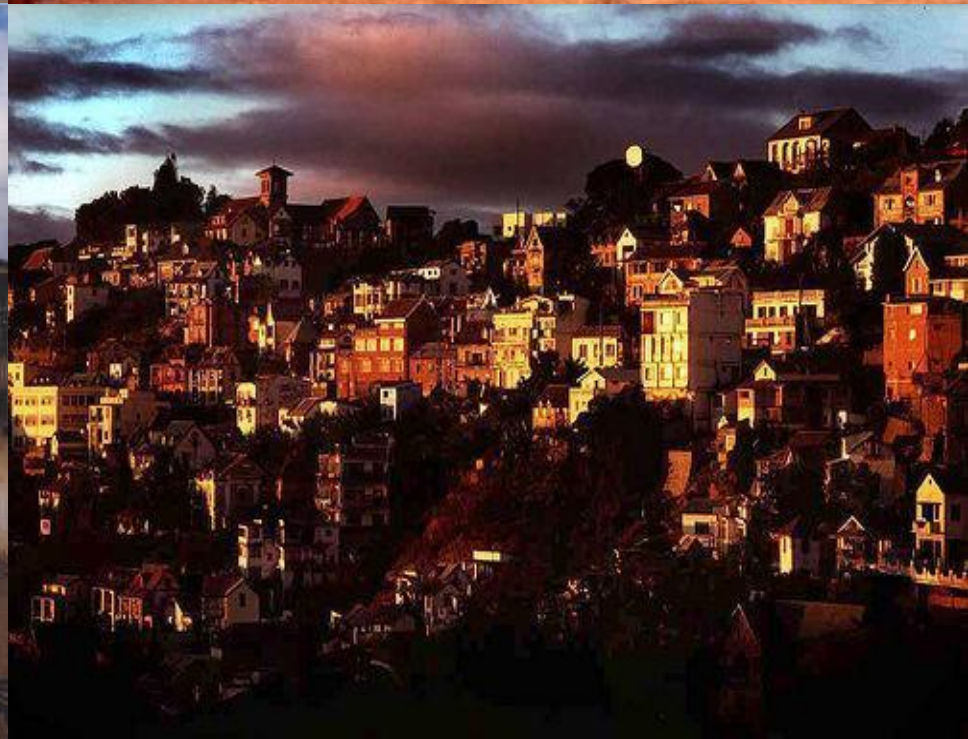

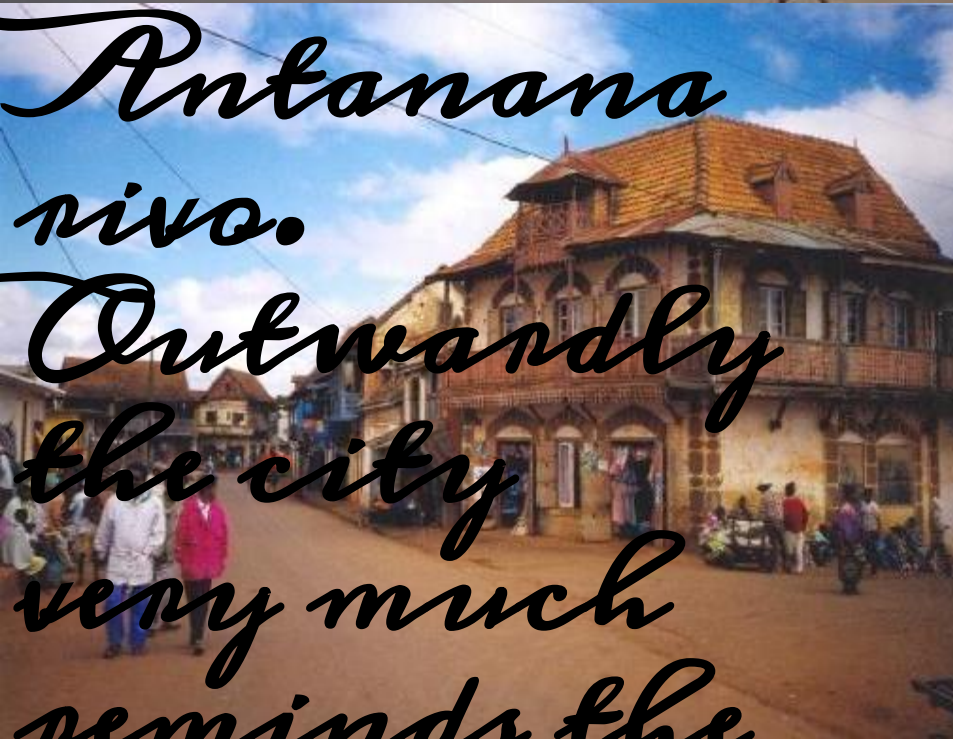

*On the island
there are 134*

*reserved zones
and 3 huge
national parks*

*Antananarivo.
Outwardly
the city
very much
reminds the*

Madagascar is a vanilla most large exporter in

The solar island
of Madagascar
since the
childhood
excited our
