

# The natural world

**Since ancient time Nature has served Man being the source of his life.**

**For thousands of years people and animals lived in harmony with nature.**

**With the development of civilization not only our environment has changed but also the habits of animals.**

**Wild animals became lazier and they hunt less. Sometimes they want to find food in the cities and often are killed there.**

# Strongly habits and behavior of dogs in the city changed

# Dogs pass to green light of a traffic light and less get under cars

# Dogs go on one route to the subway

**Birds well adapted to city conditions, they often arrive in places where people throw out food**

**Proteins from sawmills get to people into houses what to eat. The reason of the such - lack of natural food**

**Because of change of life and activity of the person the behavior of animals changes**
