

**The school in my dreams
is not very big, but very
comfortable.**

It has many beautiful classrooms,
with TV. tape-recorders,
computers, many interesting
pictures and other modern
conveniences

With the help of computers we can carry out exercises and receive marks. That is very interesting >>>

Now I want to tell 'you about the furniture in our classrooms. All the tables are new with computer in it, comfortable. with shelves and vases for pens

One of the parts of our cloak-room is a shower. The corridors in our school are light-filled.

In the classroom I want to see big bookcases with many interesting books and magazines
