# Writing Tip

To write an article expressing your opinion, first make a list of points for and against the specific topic.

**In the first paragraph we introduce the topic and clearly state our opinion. In the second and third paragraphs we write our points for the topic with reasons. In the fourth paragraph we write our points against the topic with reasons. In the last paragraph we say our opinion again in other words.**

We use : *Also, Firstly, Secondly, In addition, Moreover, Furthermore* etc. to link similar ideas. We use : *On the other hand, However* etc. to introduce an opposing idea. We use: *In conclusion, All in all* etc. to begin the last paragraph.

# Planes are the Best

**Why do thousands of people all around the world choose air travel over other means of transport? Because, in my opinion, it is the best way to travel.**

**Firstly, planes are the safest way of travelling. There are fewer accidents than with other means of transport.**

**Secondly, air travel far quicker than, for example, travelling by train. With planes you can travel a great distance in a little time. In addition, you can enjoy a meal and a film on most flights.**

**On the other hand, air travel is not very comfortable because the seats are very close together. Furthermore, it is very expensive to travel by air because tickets usually cost a lot of money.**

**All in all, I think that although air travel is expensive, it is worth it. You reach your destination quickly, safe and relaxed.**
