

TV or not TV?

Today is topic is TV violence.

Millions of people in their spare time watch TV. Everybody can find there something interesting for him. Some of the TV are owned by different corporations. The owners can advertise whatever they choose.

But it is hardly fair to say that TV do not try to raise cultural level of the people. TV brings to millions of the homes not only entertainment and news but also violent programmes.

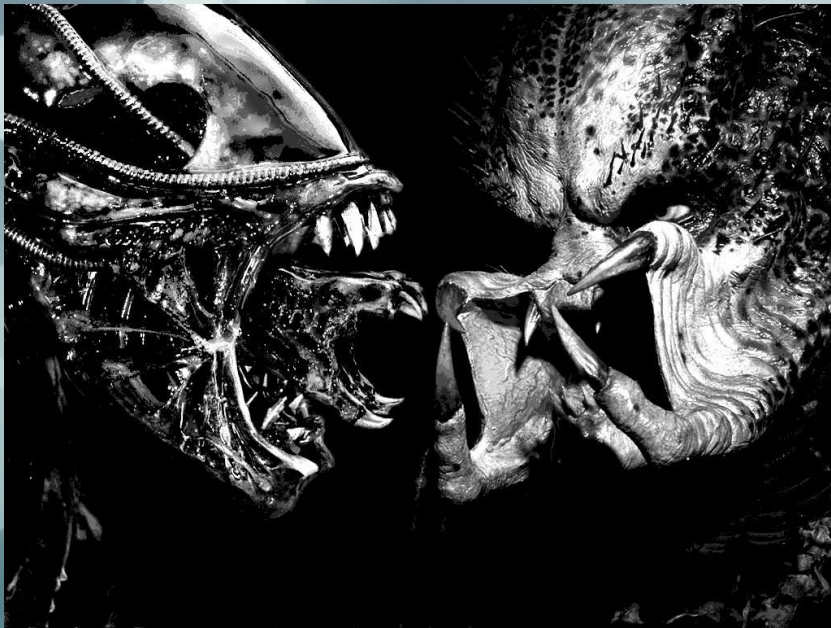

Today, violent programmes are attracting more and more audiences. You ask why? Because cultural and education programs are not so actual, especially among the young. For example, almost of all violence takes place in cartoons.

Many parents do not give the big attention that their children look. They do not reflect on that looking such cartoons or action show, their children can make the same acts in a life.

I think parents should pay attention that their children look, because violence on the TV has a negative effect on children's behavior.

I for that the violence
over TV was not!

I call for a ban on programmes showing violent scenes or film containing violent scenes showed at night.

Thanks for attention!
