Материалы, представленные в УМК Биболевой, а также структура построения уроков отвечают требованиям уровня подготовки выпускников к сдаче Государственной Итоговой Аттестации.

УМК выполняет основную функцию, стоящую перед предметом «Английский язык»: формирование коммуникативной компетенции у учащихся, подразумевающей способность общаться на английском языке в пределах тем школьной программы и последующее использование его в жизненных ситуациях.

В материалы УМК включены задания, максимально приближенные к структуре ГИА и ЕГЭ, позволяющие подготовить школьника к экзамену.

УМК содержит материал для дополнительной интенсивной тренировки учащихся в чтении, письме и говорении, который позволяет скорректировать знания учащихся в области грамматики и лексики.
