Answer . . .*

# Did you know? ..

It is no coincidence that the words **citizenship** and **city** are similar. Both come from the Latin word for "city." In ancient Greece and Rome **citizens** were the **free inhabitants** of a city, or, more properly, of a city-state. The city-state was a self-governing community that came many centuries before the development of nations.

# What is a "citizen"?

Longman Dictionary: citizen n

LONGMAN

/'sɪtəzən/ noun [countable]

**1** someone who lives in a particular town, country, or state and has rights and responsibilities there: *teaching our children to be good citizens*

**2** someone who belongs to a particular country, whether they are living there or not: *tax advantages for British citizens living and working abroad*
