

Exploration of space

A futuristic space exploration scene. A bright blue energy source or star is at the center, emitting rays of light. To the right, a planet with a blue and white atmosphere is visible, surrounded by a field of dark asteroids. In the lower left, a smaller planet with a red and white surface is shown. The background is a dark, starry space.

First artificial Earth satellite

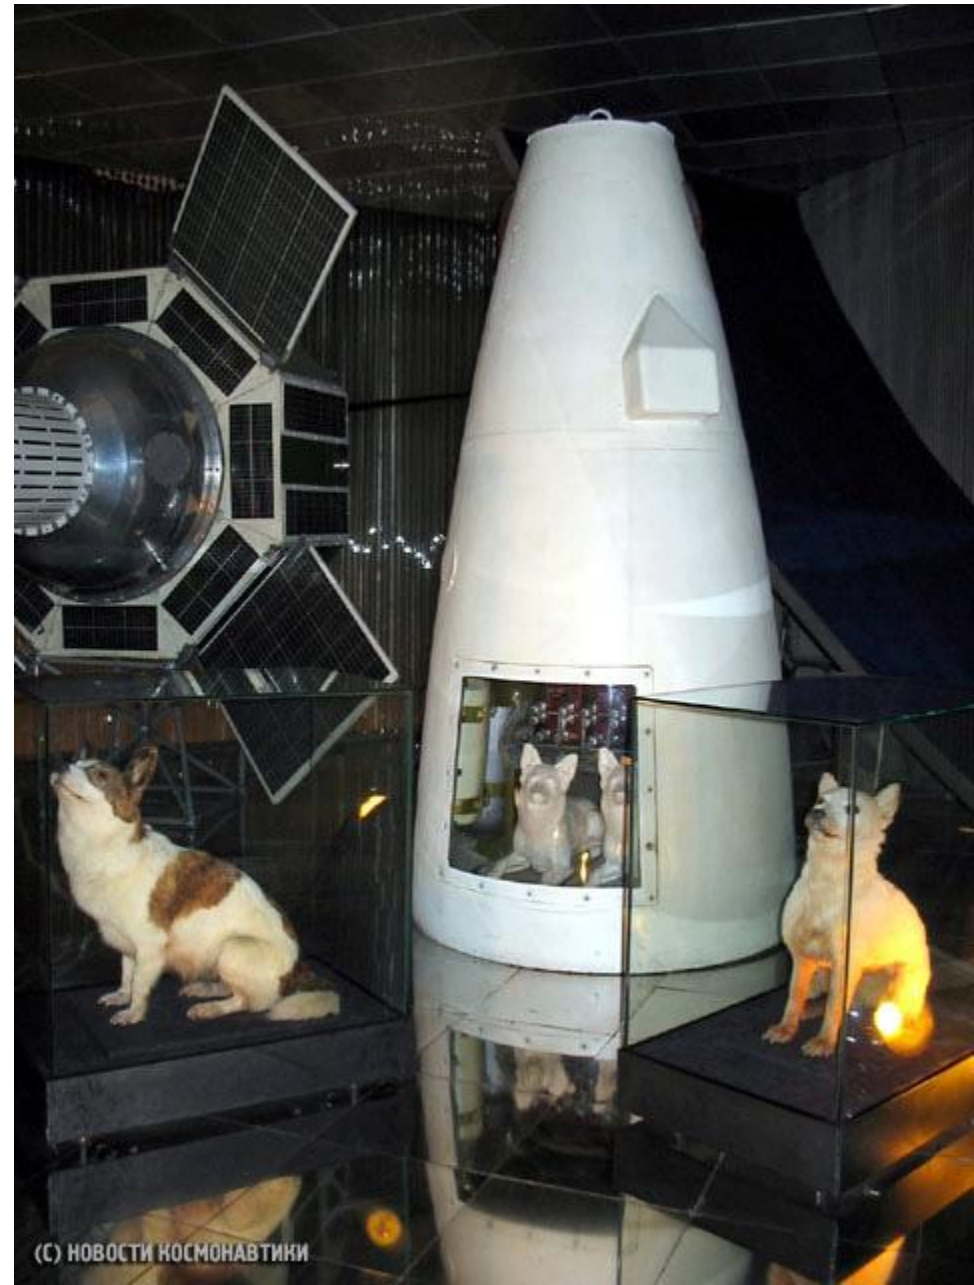

“Satellite - 1”

Belka and Strelka

Belka and Strelka – first soviet dogs –
cosmonauts, who returned to Earth

Yuri Alekseyevich Gagarin

First person, who to fly into space

Valentina Tereshkova

Aleksey Leonov

Moon landing

"Apollo – 11" landed on the moon July 20, 1969.

*That's one small step for man,
one giant leap for mankind*
