

A 3D anatomical illustration of a human torso, rendered in a glowing blue color. The heart is highlighted in a bright red color, positioned centrally in the chest area. The background is black, making the glowing figure stand out.

Heart Structure

Faiq Bin Zahid

Blood travels through the heart twice before returning to the body

The double circulatory system

External view of the heart

The vena cava carries deoxygenated blood from the body to the right atrium

superior
vena cava
(transports blood
from the head)

inferior
vena cava
(transports blood
from rest of body)

The right atrium collects deoxygenated blood and pumps it to the right ventricle

The right ventricle pumps deoxygenated blood to the lungs

The pulmonary artery carries deoxygenated blood from the right ventricle to the lungs

The septum separates the left and right sides of the heart

The pulmonary veins carry oxygenated blood from the lungs to the left atrium

The left atrium collects the oxygenated blood and pumps it to the left ventricle

The left ventricle pumps oxygenated blood to the body via the aorta

The aorta carries the oxygenated from the left ventricle to the rest of the body

Atrio-ventricular valves prevent backflow of blood into the atria when ventricles contract

The semi-lunar valves prevent backflow of blood from the arteries into the ventricles

Summary Quiz

Identify the part of the heart indicated by an arrow .
There are 10 questions in total.

Question 1

Question 2

Question 3

Question 4

Question 5

Question 6

Question 7

Question 8

Question 9

Question 10

Answers

- 1 left ventricle
- 2 vena cava
- 3 right atrium
- 4 pulmonary artery
- 5 aorta
- 6 pulmonary vein
- 7 left atrium
- 8 atrio-ventricular (tricuspid) valve
- 9 semi-lunar (aortic) valve
- 10 right ventricle

A 3D anatomical illustration of a human torso, rendered in a glowing blue color. The heart is highlighted in a bright red color, positioned centrally in the chest area. The word "Finish" is written in white text across the lower chest. At the bottom, the name "Faiq Bin Zahid" is written in red text.

Finish

Faiq Bin Zahid
