A close-up photograph of oregano (Origanum vulgare) showing its characteristic upright stems, green leaves, and clusters of small, light purple flowers. The background is a soft, out-of-focus green.

*Душица*

A solid red circle is located in the bottom right corner of the image.

A close-up photograph of a Salvia (Shalфей) plant. The image shows several upright, green stems with narrow, lanceolate leaves. The stems are densely covered with small, two-lipped purple flowers. The background is a soft-focus field of similar plants, creating a sense of a large garden or field. The lighting is natural, highlighting the vibrant purple of the blossoms against the green foliage.

*Шалфей*

*Малина*

A close-up photograph of a flowering plant. The image shows several flowers in various stages of bloom, ranging from deep purple to bright pink. The leaves are green and have a distinct hairy or pubescent texture. The background is blurred, showing what appears to be dry, yellowish-brown leaves or ground cover. The lighting is bright, highlighting the colors and textures of the plant.

*Медуница*

*Одуванчик*

*Яснотка*

A close-up photograph of a single asparagus spear. The tip is tightly packed and has a distinct purple or reddish-purple hue, while the lower part of the spear is a vibrant green. The background is a soft-focus field of other asparagus spears, creating a sense of a fresh harvest.
