sum

© Manuela Zangara

Red ramen – 100000  
sum

# Business plan

## 事業計画

---

Soup "Ramen" is eaten almost in all corners of the world. Recently it became popular in Uzbekistan too: first the ramen appeared in the menu of several restaurants of Asian themes, then specialized shops began to open. We suggest you to understand the reasons for the popularity of this dish and consider the business models of Tashkent institutions that make a "bet on ramen".

---

**We are pioneers in our business. We want to bring a piece of Japan to our country, and just make a lot of money here. Only one shop, only one cook-dishwasher-cleaner – Shams. We call ourselves “We are ASS”.**

**How we want to start a business**

**We want to raise money for the shop with crowdfunding, about 100,000 dollars, 70% of which will be given to Shoakhmad and Azmina as a gift.**

The end
