

**Вас приветствует  
2 Д класс!!!**

A composite image of Earth from space, showing various elements of nature and technology. The Earth is depicted as a small globe in the center, surrounded by a thick layer of white clouds. The globe is divided into two main sections: the left side shows a lush green landscape with a river, a bridge, and a power plant; the right side shows a green field with sheep and trees. In the background, several satellites and space stations are visible in orbit around the Earth. The overall scene is set against a blue sky with white clouds.
