**Нам понадобится вот такой материал:**

- Картонка, она понадобится для фона, берем голубой цвет.
- Бумага, цветная, конечно же красного ну и зеленого цвета.
- Георгиевская лента.
- Обычный клей и ножницы.

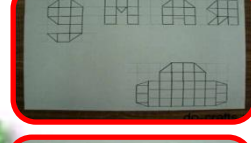

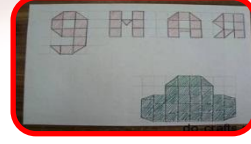

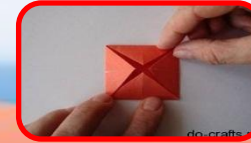

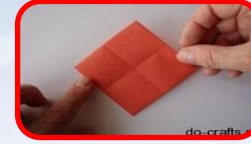

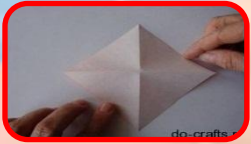

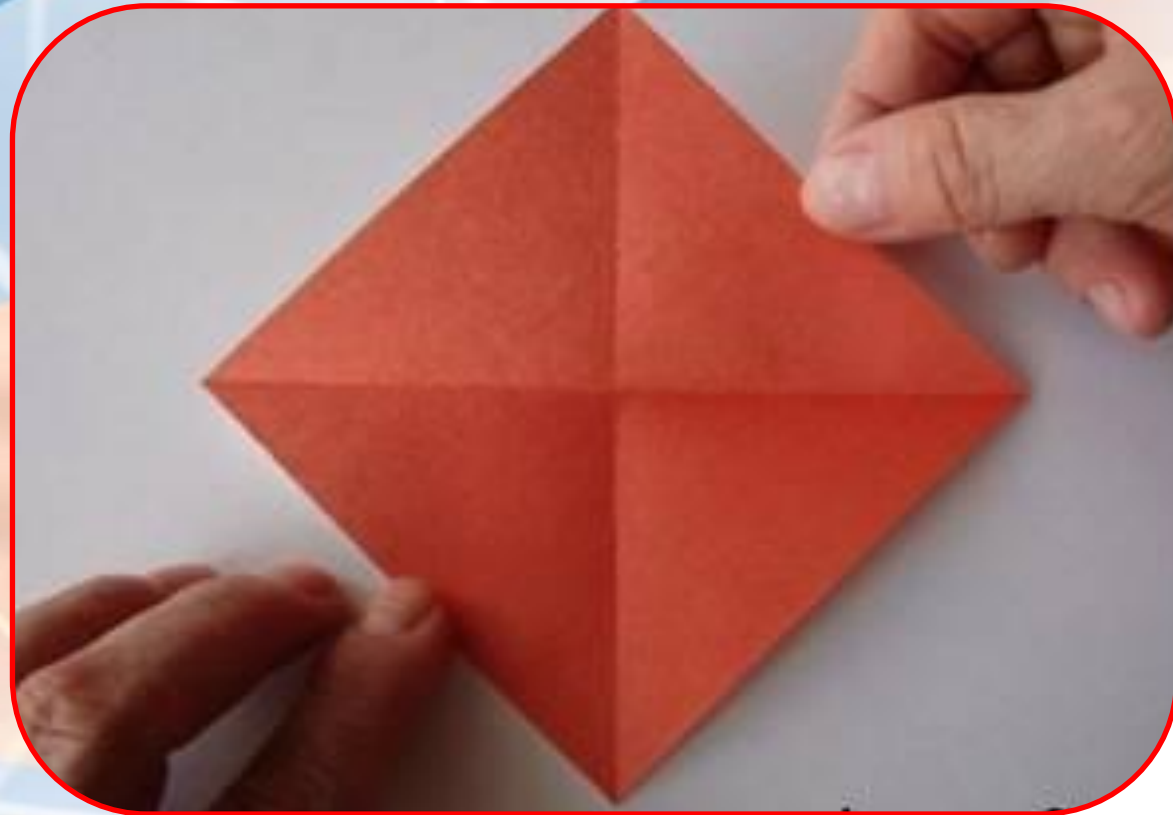

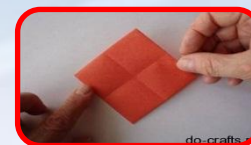

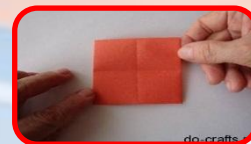

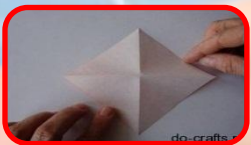

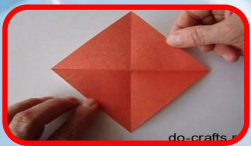

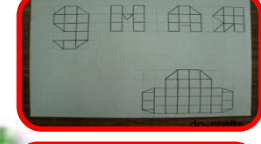

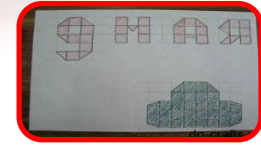

Нам понадобятся для поделки так называемые модули. 31 штука зеленого цвета и 29 модулей которые имеют красный цвет. Берем красный квадратик что бы был размер 4 см.

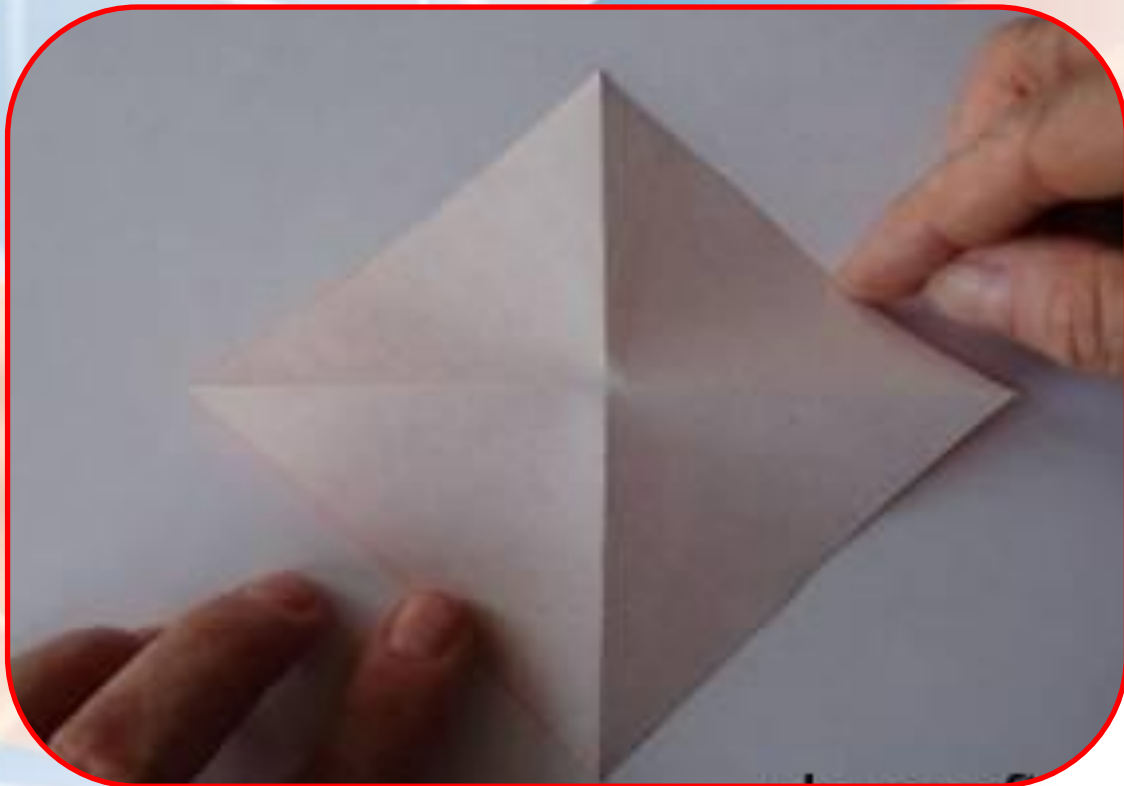

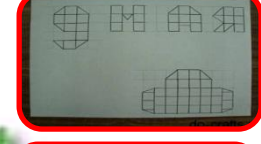

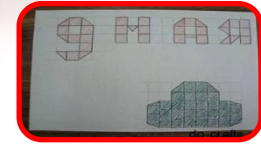

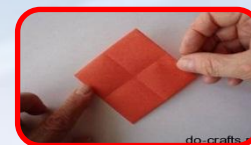

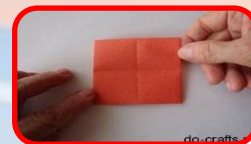

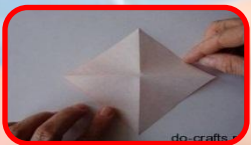

Теперь наш квадратик сгибаем по двум сторонам, по уголкам

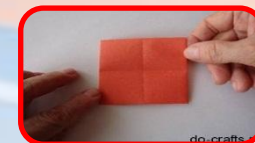

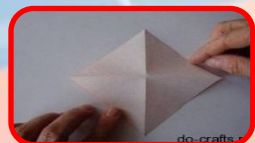

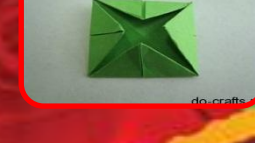

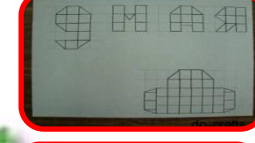

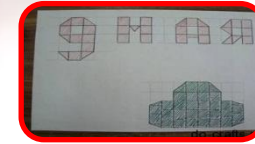

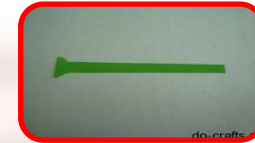

**Затем переворачиваем красненький квадратик**

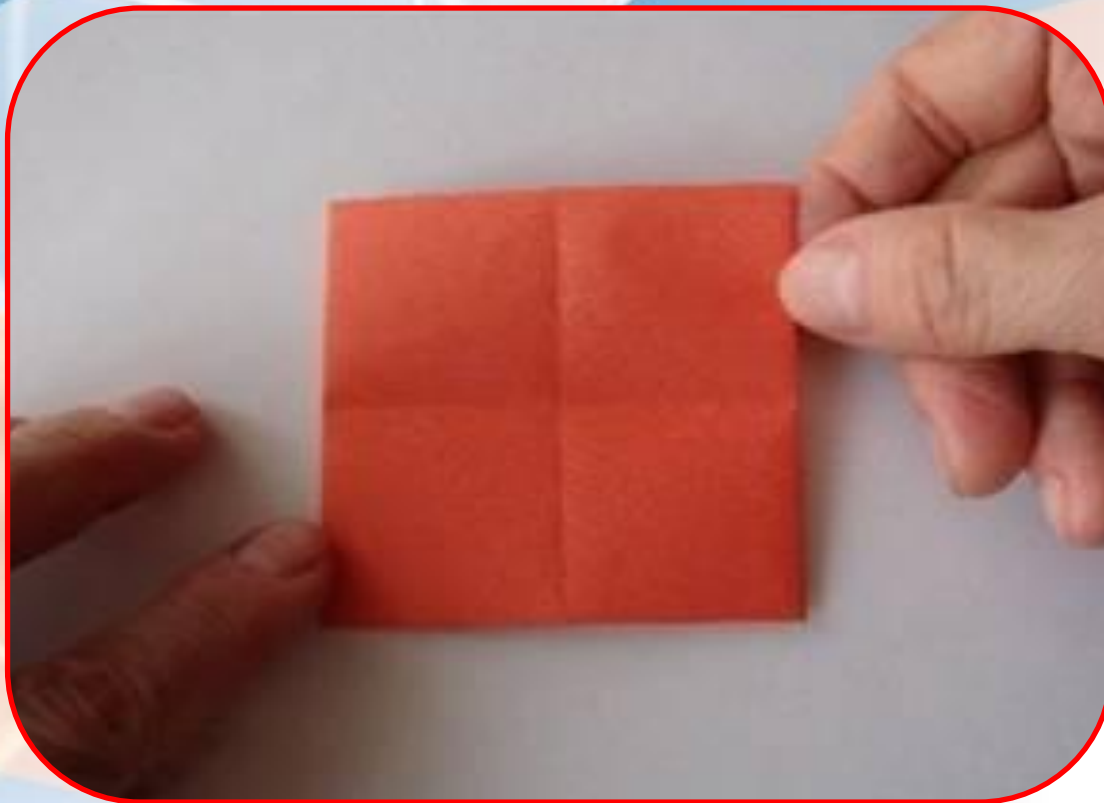

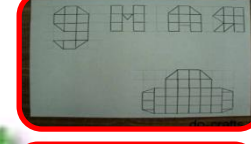

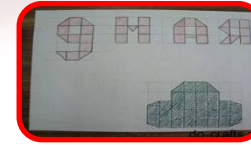

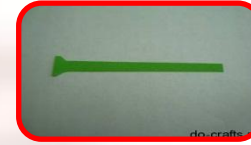

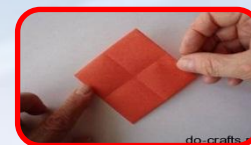

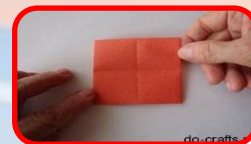

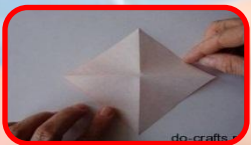

**Складываем вот в таком виде квадратик.**

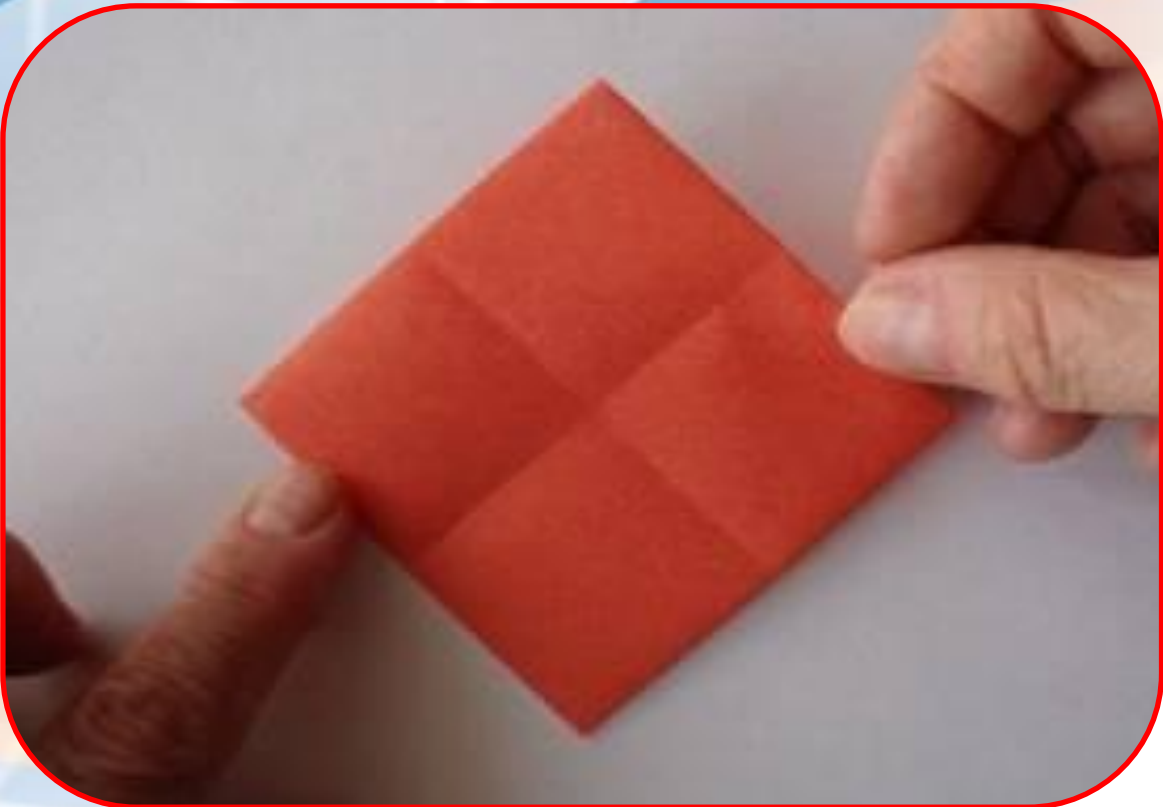

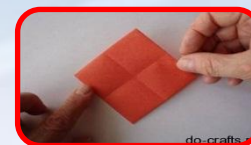

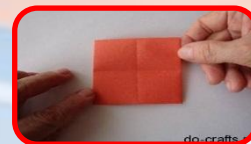

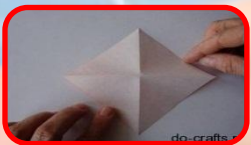

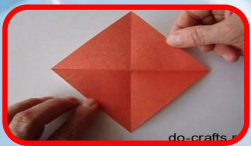

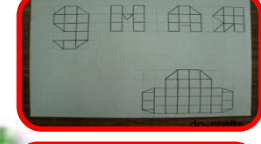

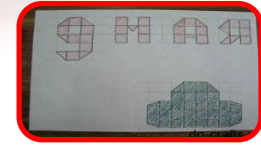

**Переворачиваем наш квадратик на другую сторону**

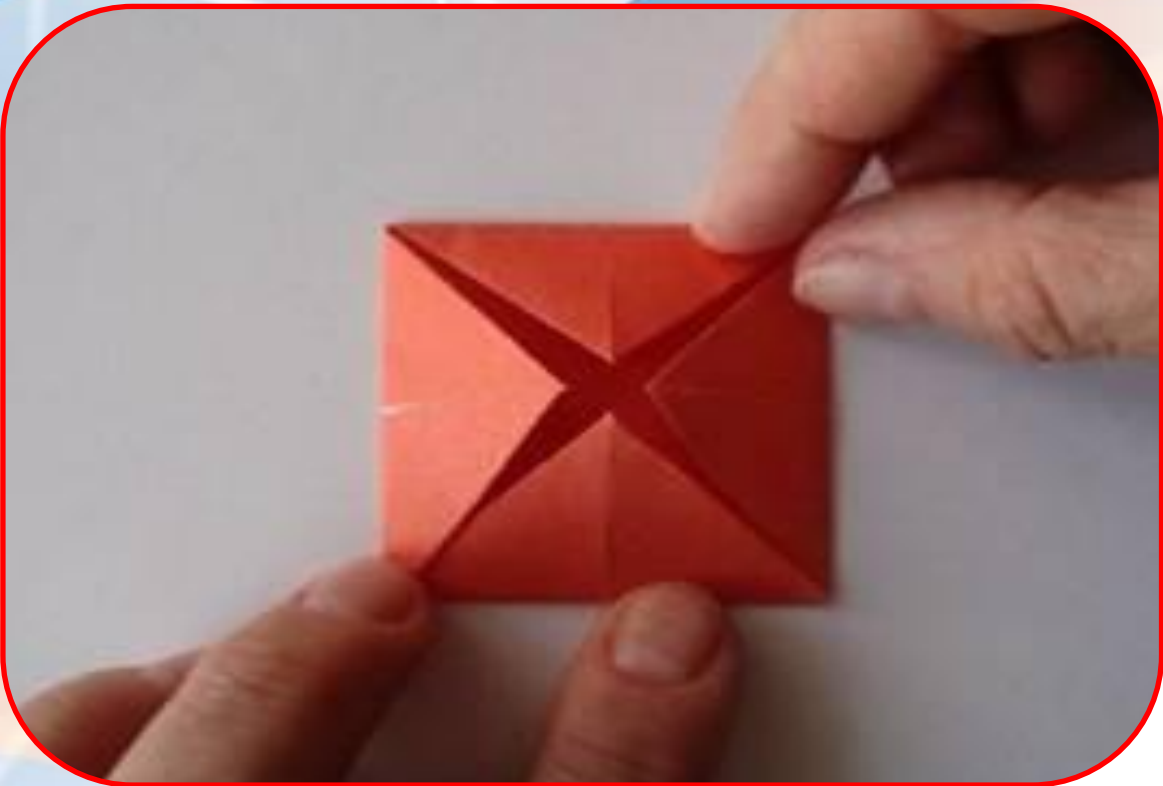

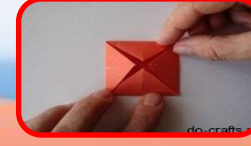

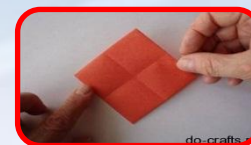

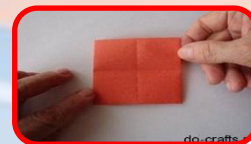

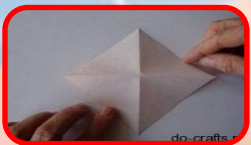

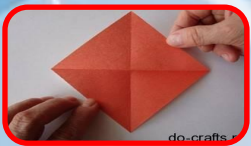

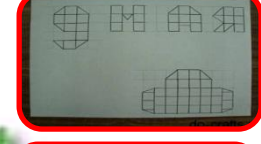

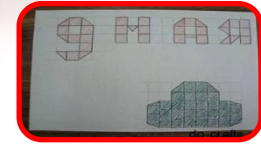

**Следующим шагом положите квадрат под углом 45 градусов**

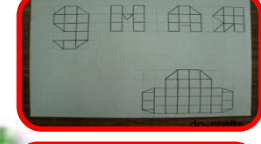

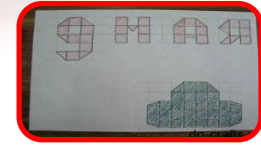

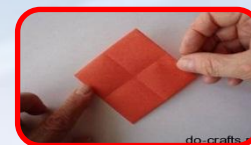

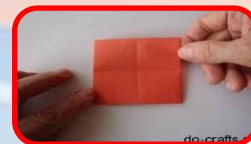

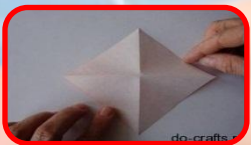

**Теперь еще разок складываем квадратик в такой вид**

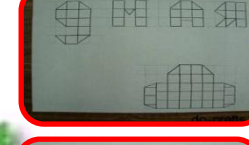

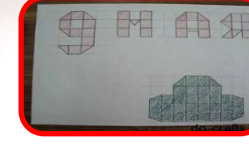

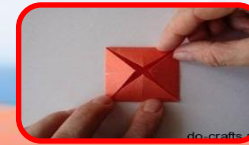

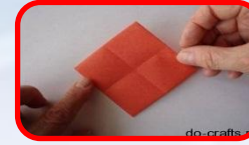

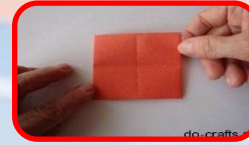

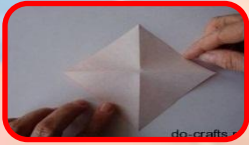

**В таком же виде делаем все квадратики**

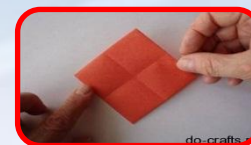

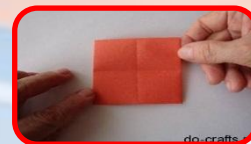

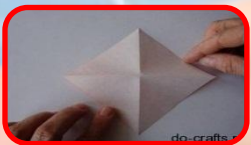

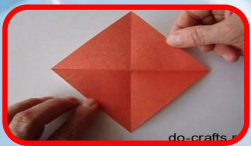

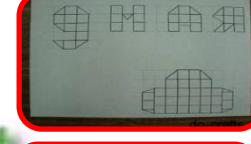

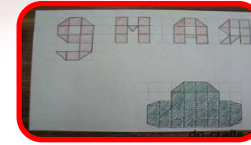

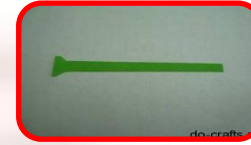

**В таком же виде делаем все  
квадратики**

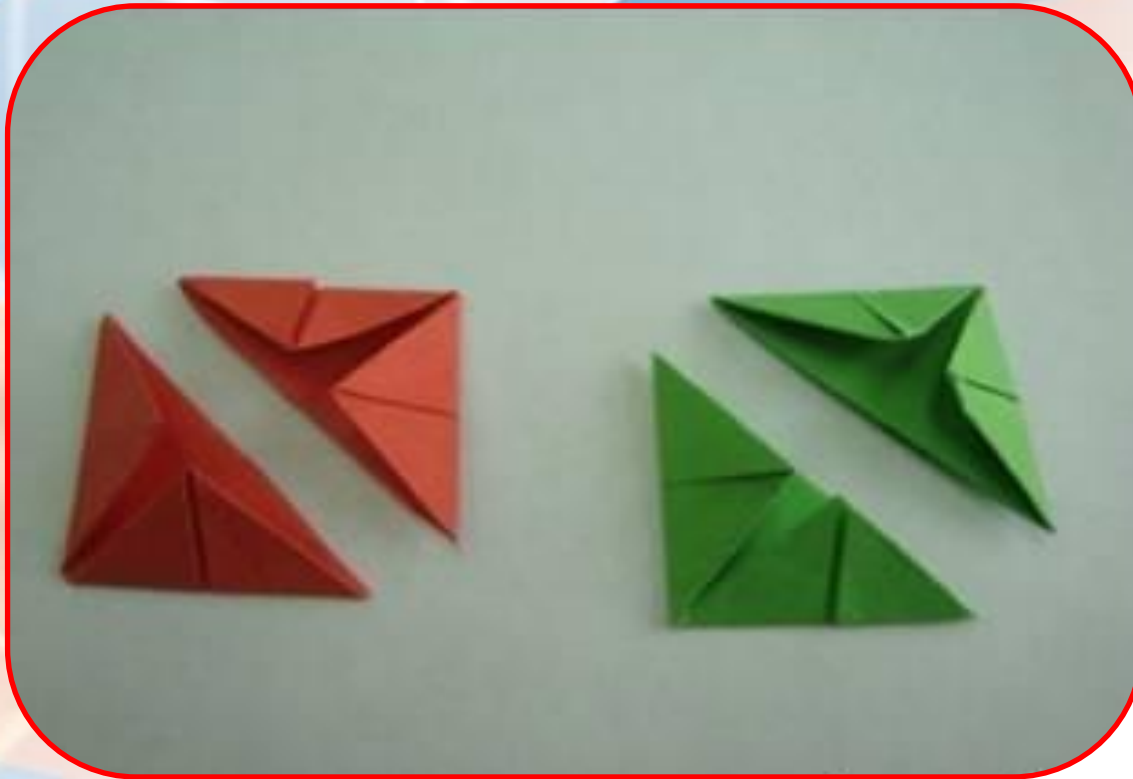

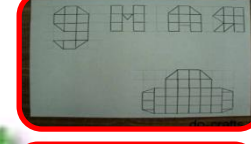

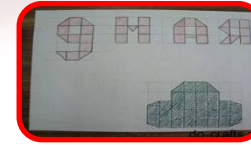

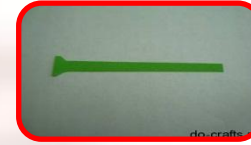

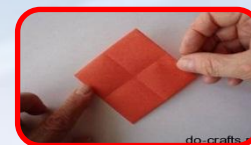

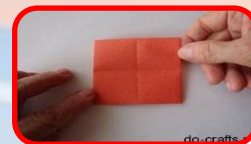

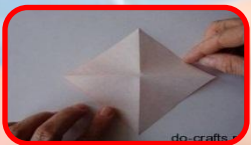

Что бы поделка являлась аккуратной, нам понадобятся треугольнички, делаем их

**Для поделки нам понадобится общая заготовка, т.е. для начала на картонке надо нарисовать изначально картинку. А так же ее разрисовать, что бы понять куда какой модуль и какого цвета клеить**
