

МАСТЕР-КЛАСС

Тема мастер-класса:

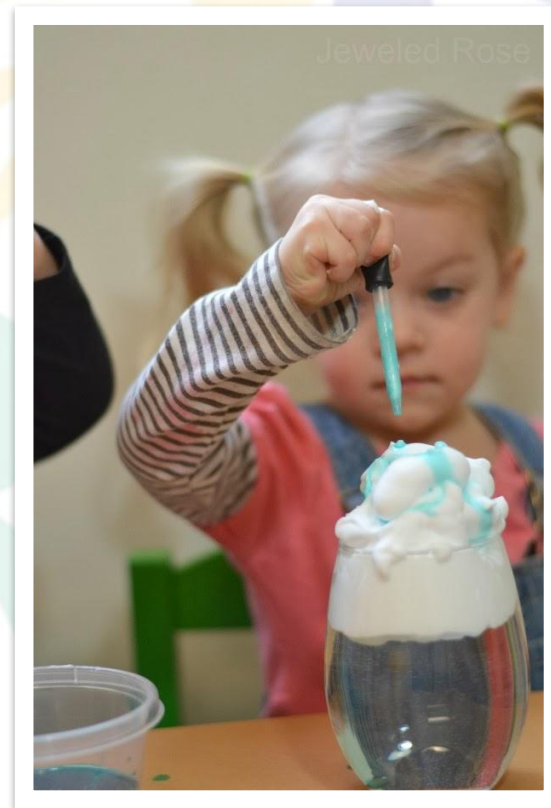

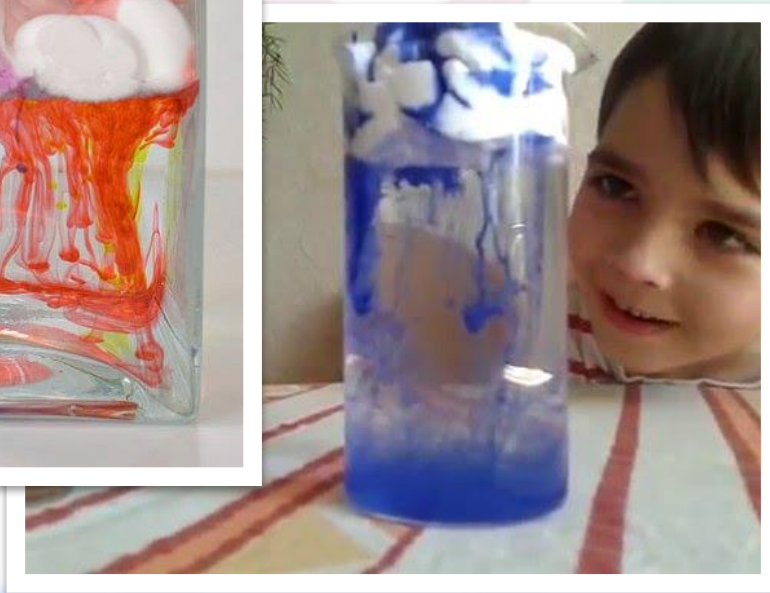

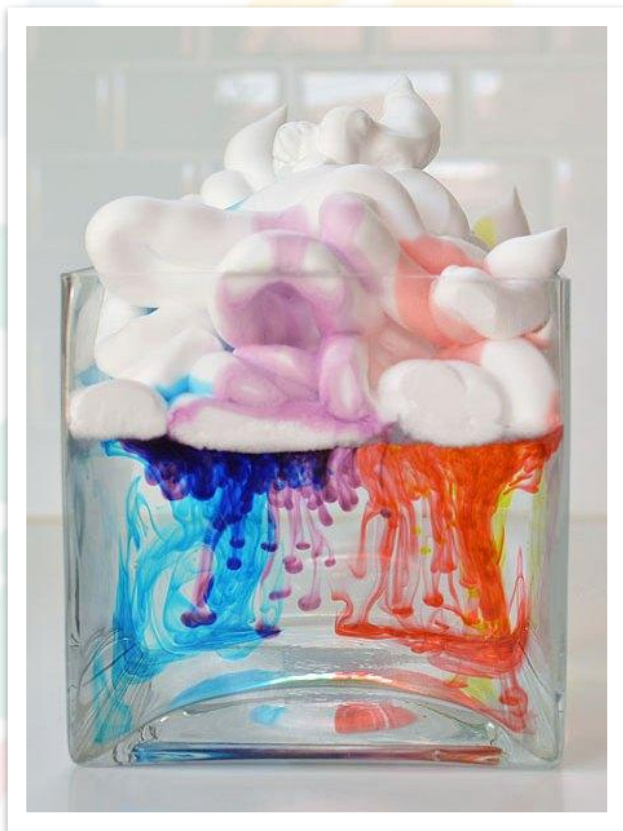

**«Волшебная пена:
использование в работе с
детьми нетрадиционного
материала»**

Пена как снег

Пена как дождевое облако

Пена как материал для рисования

A close-up photograph of a child's hand, heavily smeared with various colors of paint (yellow, green, red, blue, white). The hand is positioned over a white surface that is also covered in colorful paint splatters and smudges. The background is softly blurred, showing more of the white surface and some green and yellow shapes.
