

**Составь из трех палочек фигуру так, чтобы  
конец одной палочки совпадал с началом  
другой.**

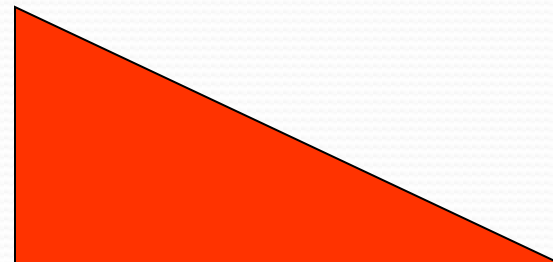

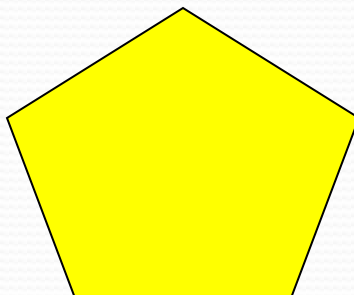

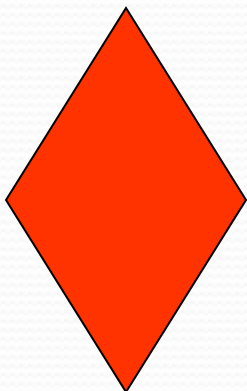

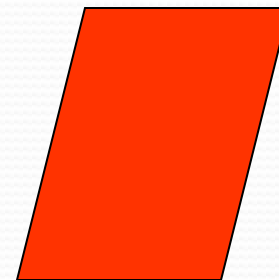

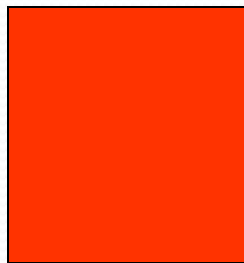

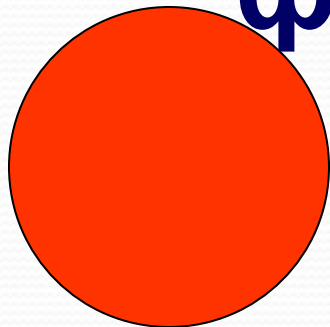

# Разбей на совокупности множество геометрических фигур

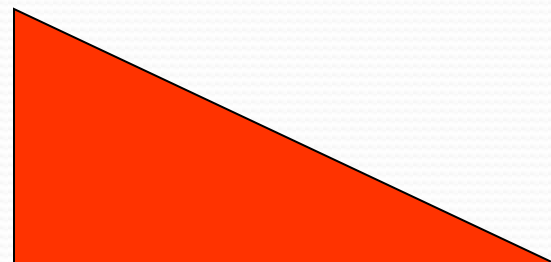

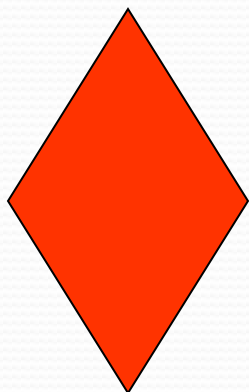

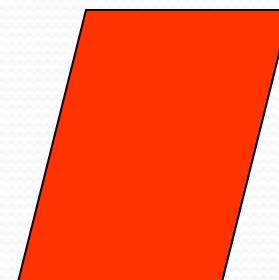

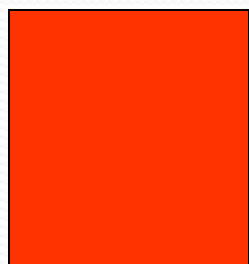

# Признаки предметов.

Найди лишнюю  
фигуру:

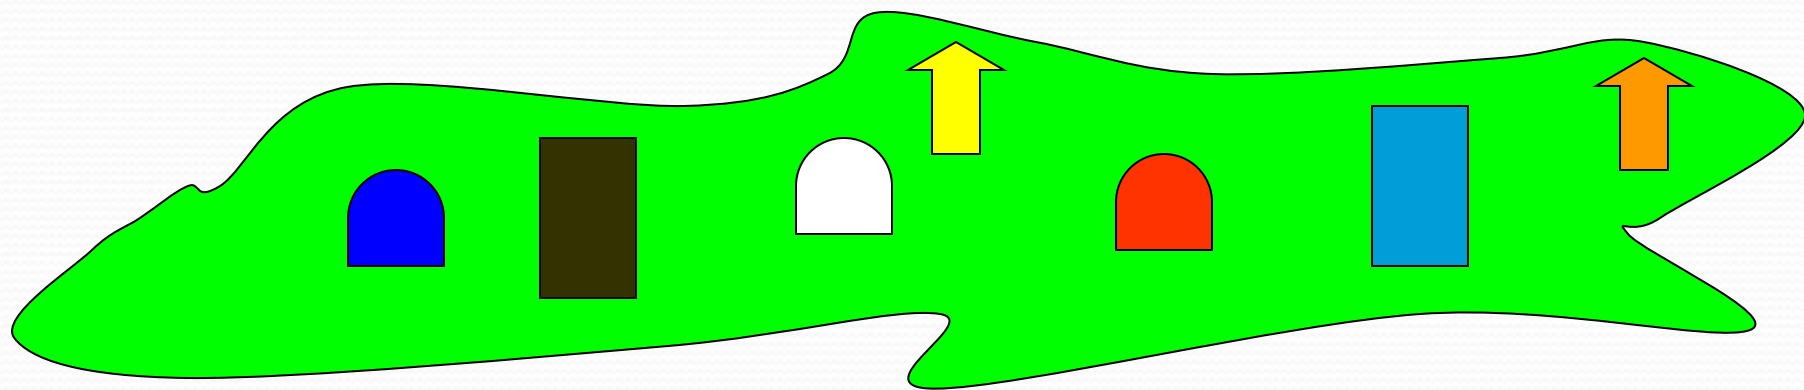

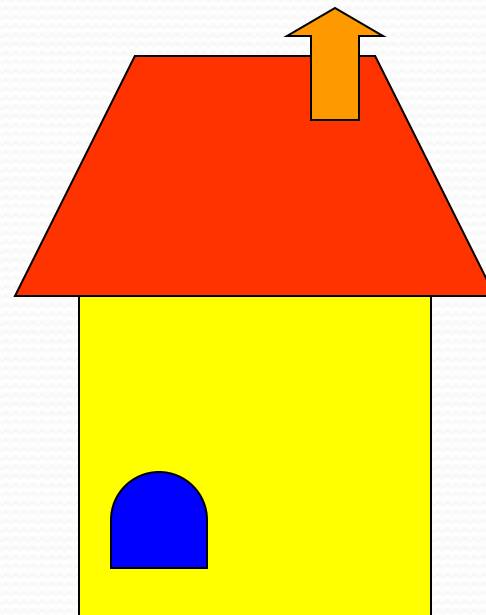

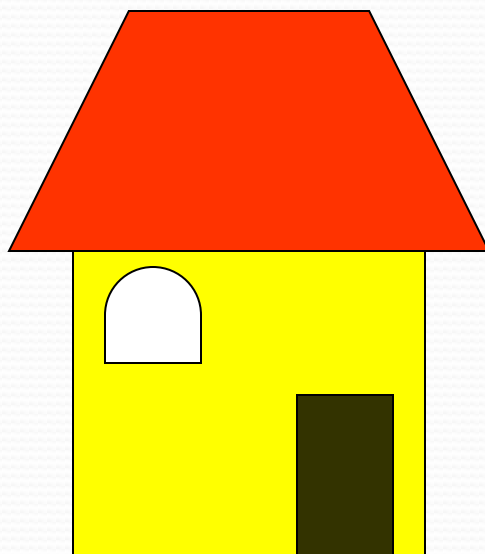

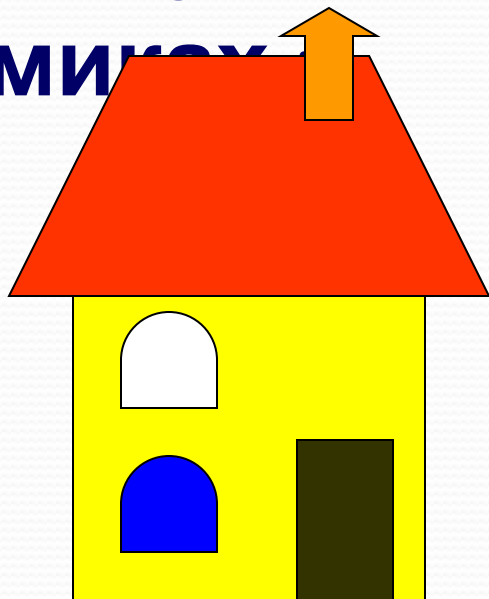

# Признаки предметов.

Проверь себя:

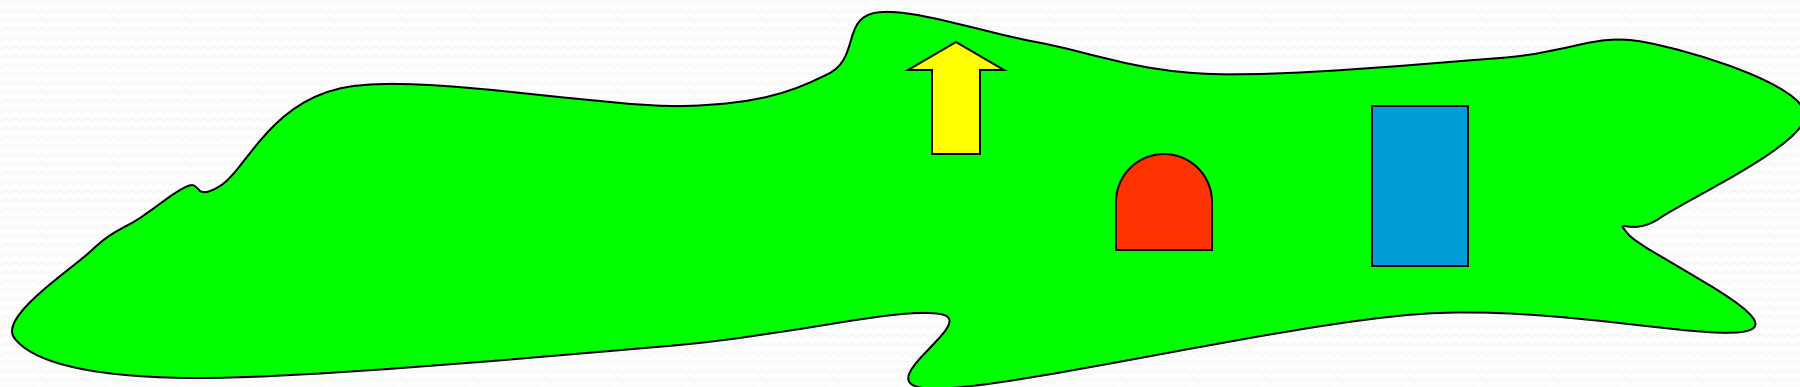

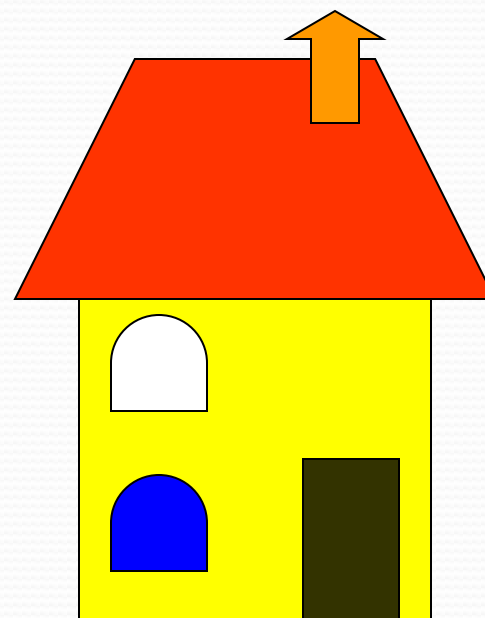

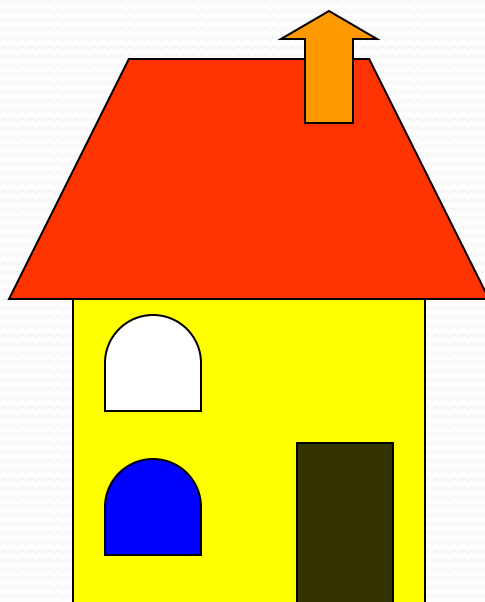

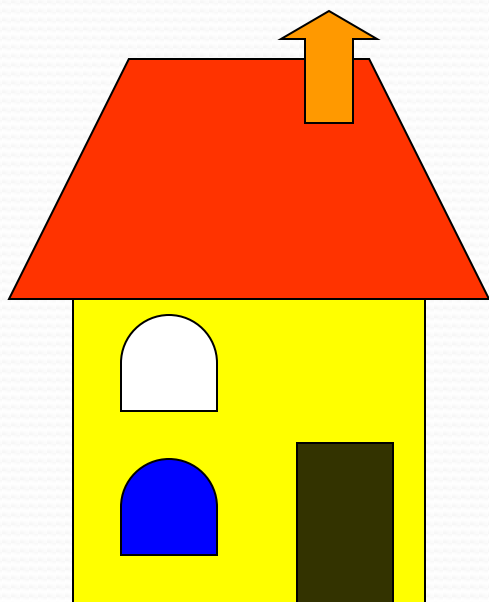

# Состав предметов.

Дорисуй недостающие детали на  
домиках

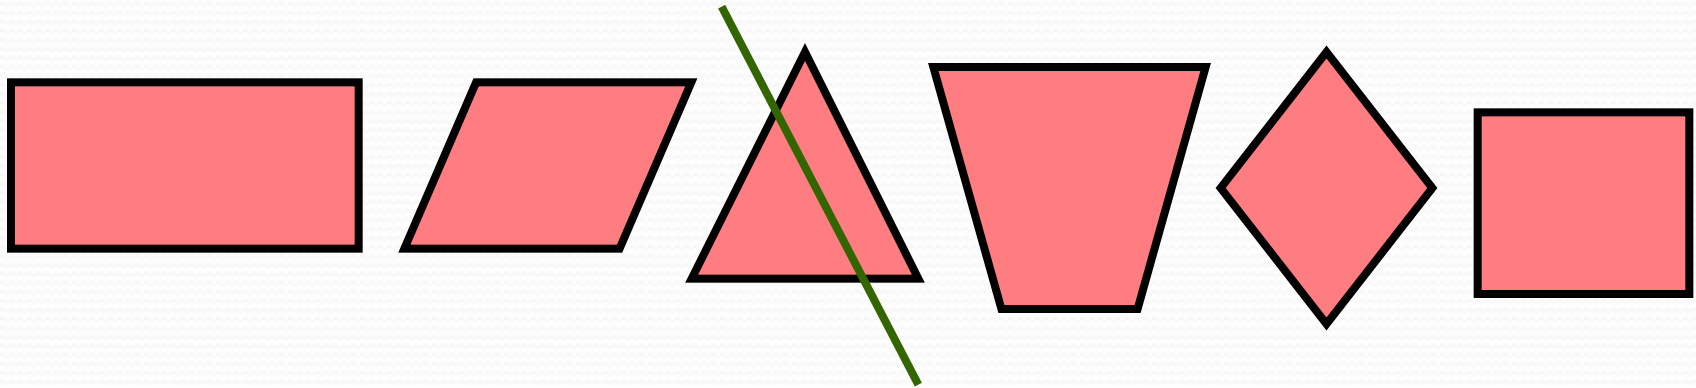

# Состав предметов.

## Проверь себя:

*Зачеркни лишнюю фигуру.*

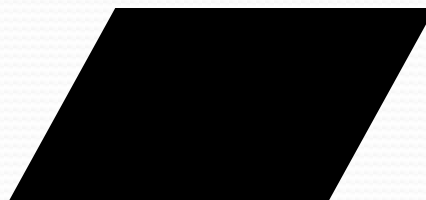

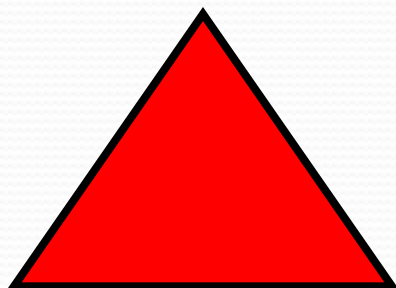

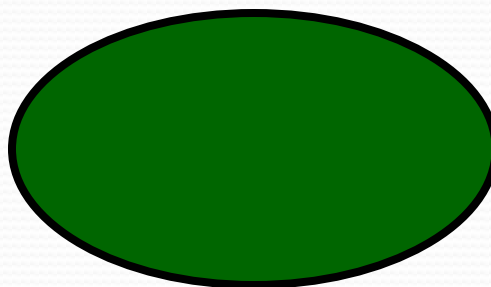

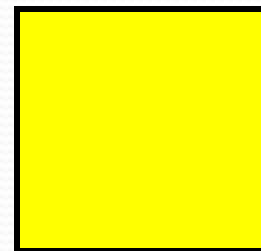

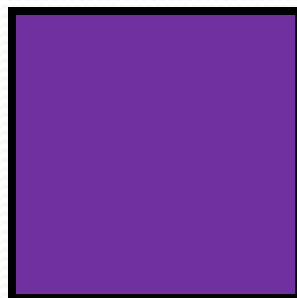

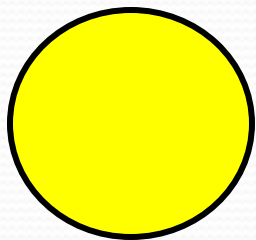

*Назови множество оставшихся фигур.*

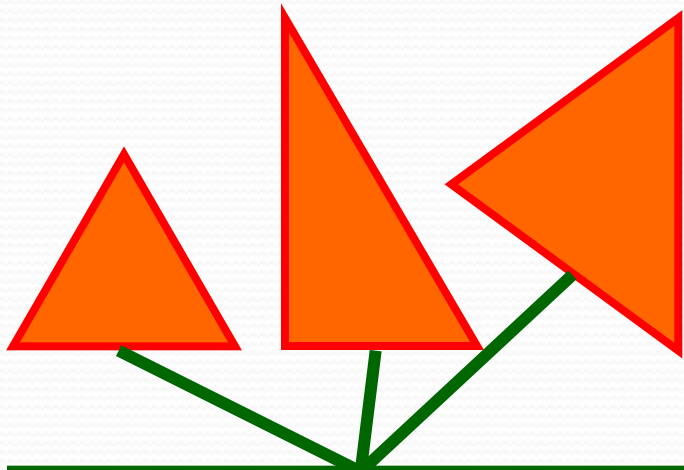

**четыреугольники**

*Найди фигуру: не красную, не чёрную, не круг, не квадрат.*

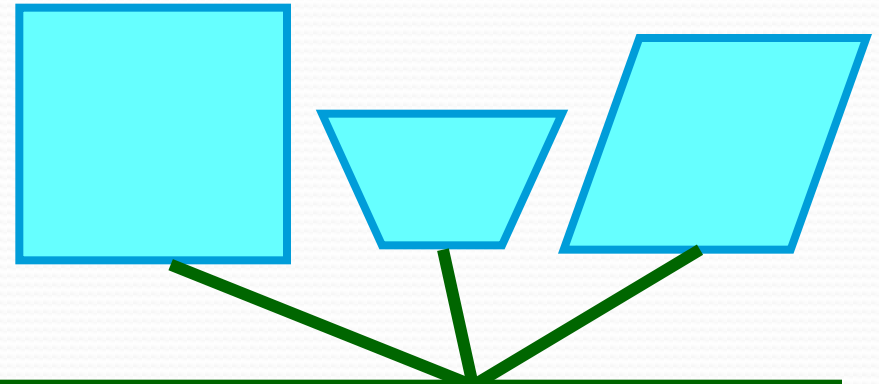

*Как называются совокупности фигур?*

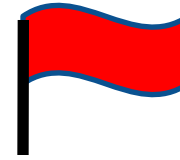

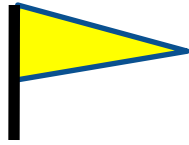

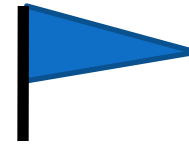

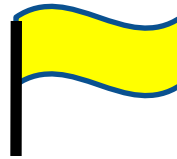

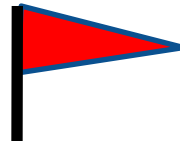

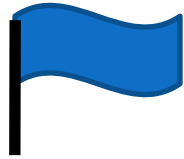

*Треугольники*

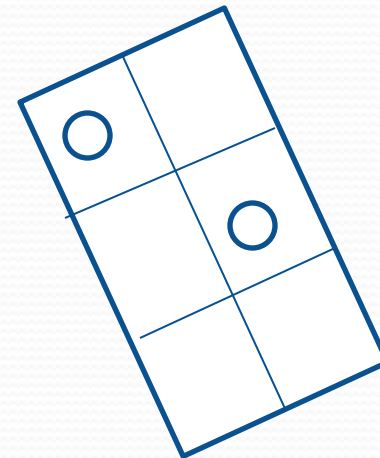

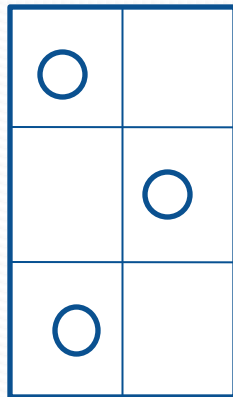

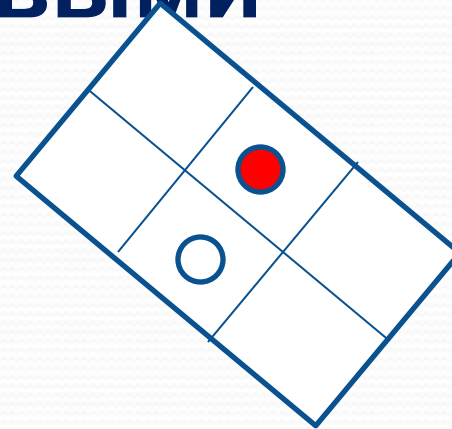

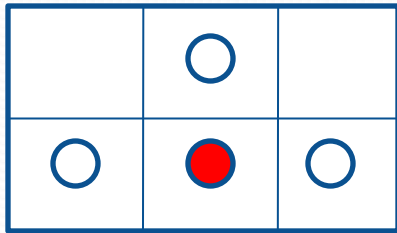

*Четырёхугольники*

*Геометрические фигуры*

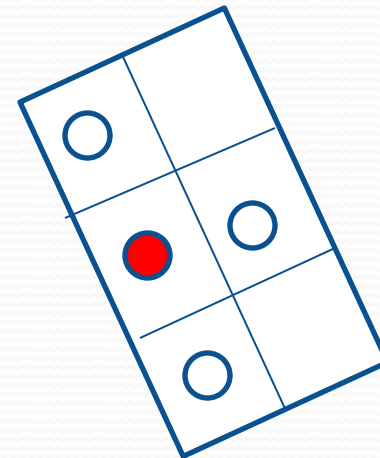

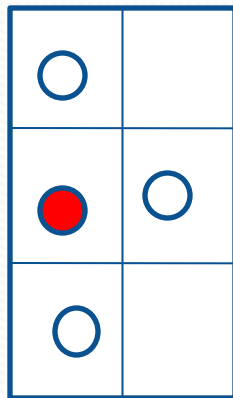

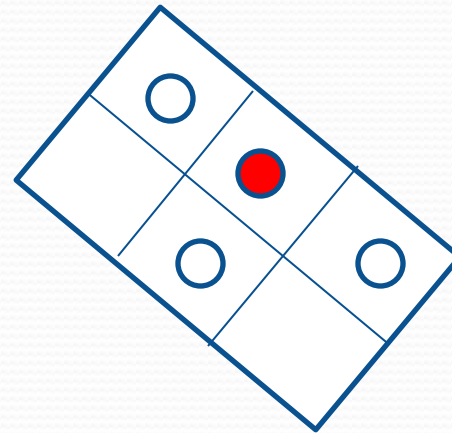

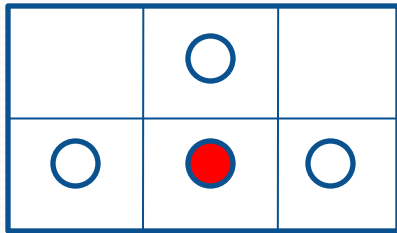

# Найди девятый предмет

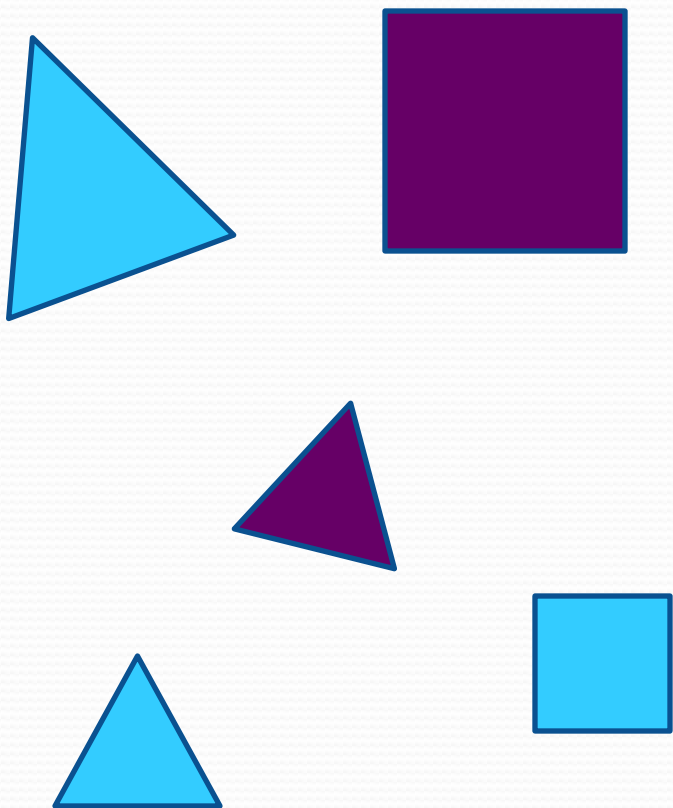

# Сделай рисунки одинаковыми

# Проверь себя:

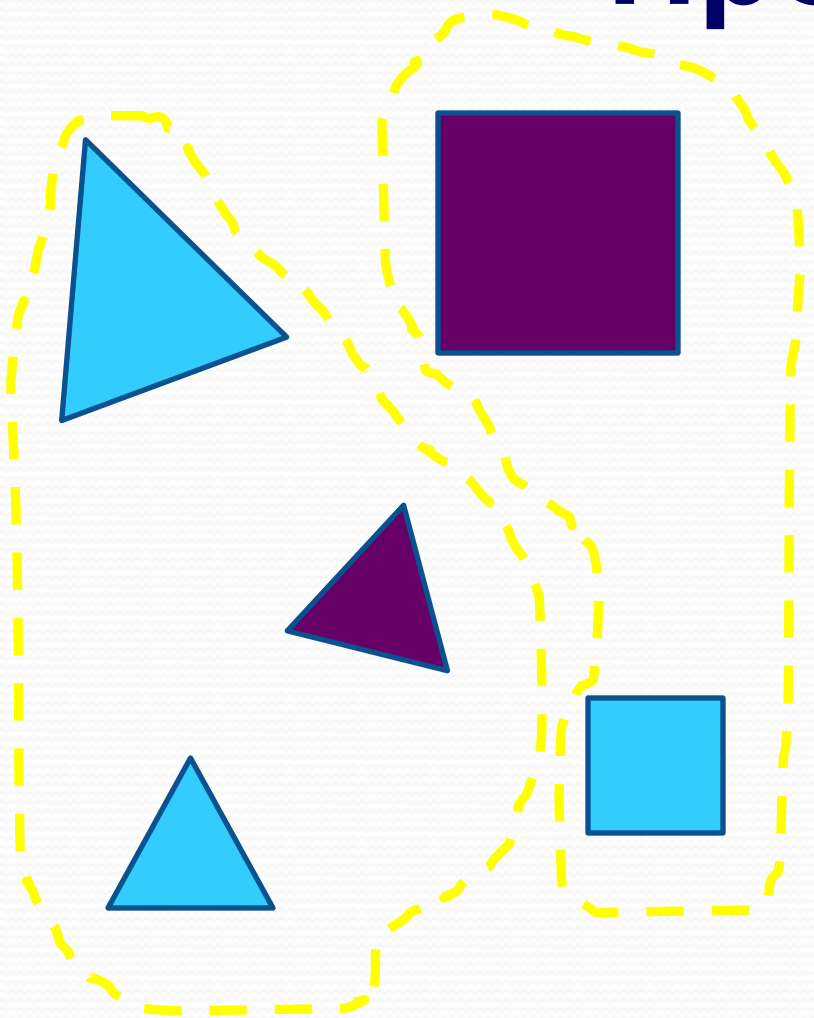

Разбей фигуры на совокупности и допиши равенства:

$$\begin{array}{r}
 \Gamma + \text{K} = \Phi \\
 \square \quad \square \quad \square \\
 + \quad \quad = \square \\
 \Phi - \square = \square \\
 \Phi - \quad = \quad
 \end{array}$$

$$\begin{array}{r}
 3 + 2 = \\
 \square \quad \square \quad \square \\
 + \quad \quad = \square \\
 5 - \square = \square \\
 5 - \quad = \quad
 \end{array}$$

# Проверь себя:

$$T + K = \Phi$$

$$3 + 2 =$$

5

$$K + T = \Phi$$

$$2 + 3 =$$

5

$$\Phi - T = K$$

$$5 - 3 =$$

2

$$\Phi - K = T$$

$$5 - 2 =$$
