

Весна идёт - весне дорогу

A detailed painting of a birch forest in early spring. The scene is filled with tall, slender birch trees with characteristic white bark and dark lenticels. The ground is a mix of melting snow and patches of bright yellow grass. In the background, a dense forest of evergreen and deciduous trees is visible under a clear blue sky. The overall atmosphere is bright and fresh, capturing the transition from winter to spring.

Весна идет, весне дорогу!
