

ПЧЕЛКА МАЙЯ – ПУТЕШЕСТВЕННИЦА

ИГРА-ТРЕНАЖЕР ПО МАТЕМАТИКЕ 3 КЛАСС

Автор: Кулакова Наталья Ивановна
Учитель начальных классов
Государственного учреждения образования
«Средняя школа № 26 г. Гродно», Беларусь
2014 год

Дорогой друг!

Если ты сможешь правильно решить все примеры, пробегающие вверху, и откроешь волшебные соты, то узнаешь, где побывала Майя во время своего путешествия.

Желаю удачи!

A 3x4 grid of hexagonal cells. The numbers in the cells are: Row 1: 16, 14, 22; Row 2: 18, 20; Row 3: 17, 15. The top-middle cell (row 1, column 2) contains a blue sky with white clouds. The bottom-middle cell (row 3, column 2) contains a photograph of a pyramid in a desert. The top-right cell (row 1, column 4) contains a cartoon bee with yellow and black stripes, wings, and antennae, pointing towards the left.

Дальше

A 4x4 grid of hexagonal cells. The numbers in the cells are: Row 1: 16, (empty), (empty), 20; Row 2: (empty), 14, (empty), 18; Row 3: (empty), (empty), 17, (empty); Row 4: (empty), (empty), (empty), 21. The bottom-left cell contains a cartoon bee. The top-middle cell contains a blue sky with clouds. The middle-left cell contains a pyramid. The middle-right cell contains a pyramid in a desert landscape. The bottom-right cell contains the number 15.

A honeycomb grid of 18 hexagonal cells. The numbers 36, 32, 46, 40, 34, 38, and 26 are placed in the following cells: (row 1, col 1), (row 2, col 2), (row 2, col 4), (row 3, col 3), (row 3, col 2), (row 4, col 1), and (row 4, col 3) respectively. The grid contains several images: a blue sky with white clouds in the top-middle cell, a dark blue sky in the top-right cell, a pyramid in the middle-left cell, a pyramid in the middle-right cell, and a cartoon bee in the bottom-right cell. The remaining cells are empty.

A honeycomb-shaped grid of hexagons. The background is a desert landscape with pyramids and a blue sky. The numbers 17, 16, 18, 19, 20, and 21 are placed in specific hexagons. The hexagons at the top and bottom are empty.

A honeycomb grid of 18 hexagonal cells. The numbers 6, 7, 8, 9, 10, 11, and 12 are placed in the following cells: 6 (top row, 2nd cell), 7 (middle row, 2nd cell), 8 (bottom row, 2nd cell), 9 (bottom row, 1st cell), 10 (middle row, 1st cell), 11 (top row, 2nd cell), and 12 (top row, 3rd cell). The grid is decorated with images: a bee flying in the top right, palm trees in the top left, and a cave entrance in the bottom right.

Дальше

A large honeycomb grid composed of light yellow hexagons with dark yellow borders. The grid is arranged in a roughly rectangular shape. The numbers 10, 9, 5, 4, 7, 6, and 8 are placed in the following positions:

- 10: Middle-left hexagon.
- 9: Middle-left hexagon, above 10.
- 5: Top-middle hexagon.
- 4: Middle-right hexagon.
- 7: Middle-middle hexagon.
- 6: Middle-right hexagon, below 4.
- 8: Middle-left hexagon, below 9.

The background of the grid features two distinct scenes:

- Top: Palm trees against a blue sky with white clouds.
- Bottom: A lush green landscape with a waterfall on the left and a stone archway on the right.

Дальше

A large hexagonal grid of 12 cells, each containing a number. The grid is overlaid on a tropical landscape background featuring palm trees, a waterfall, and a stone path. The numbers are arranged in a 4x3 grid. The numbers are: 85, 100, 96, 84 in the first row; 80, 95, and an empty cell in the second row; and 90, and two empty cells in the third row. The numbers are in a bold, dark green font.
