Оценка суммы

$$300 + 500 < 347 + 567 < 400 + 600$$

Diagram illustrating the estimation of the sum $347 + 567$. The number 347 is rounded up to 400, and 567 is rounded up to 600. The resulting inequality shows that the actual sum is greater than the sum of the rounded-down parts (300 + 500) and less than the sum of the rounded-up parts (400 + 600). Arrows indicate the rounding process: red arrows point from 347 to 300 and from 567 to 500; green arrows point from 347 to 400 and from 567 to 600.

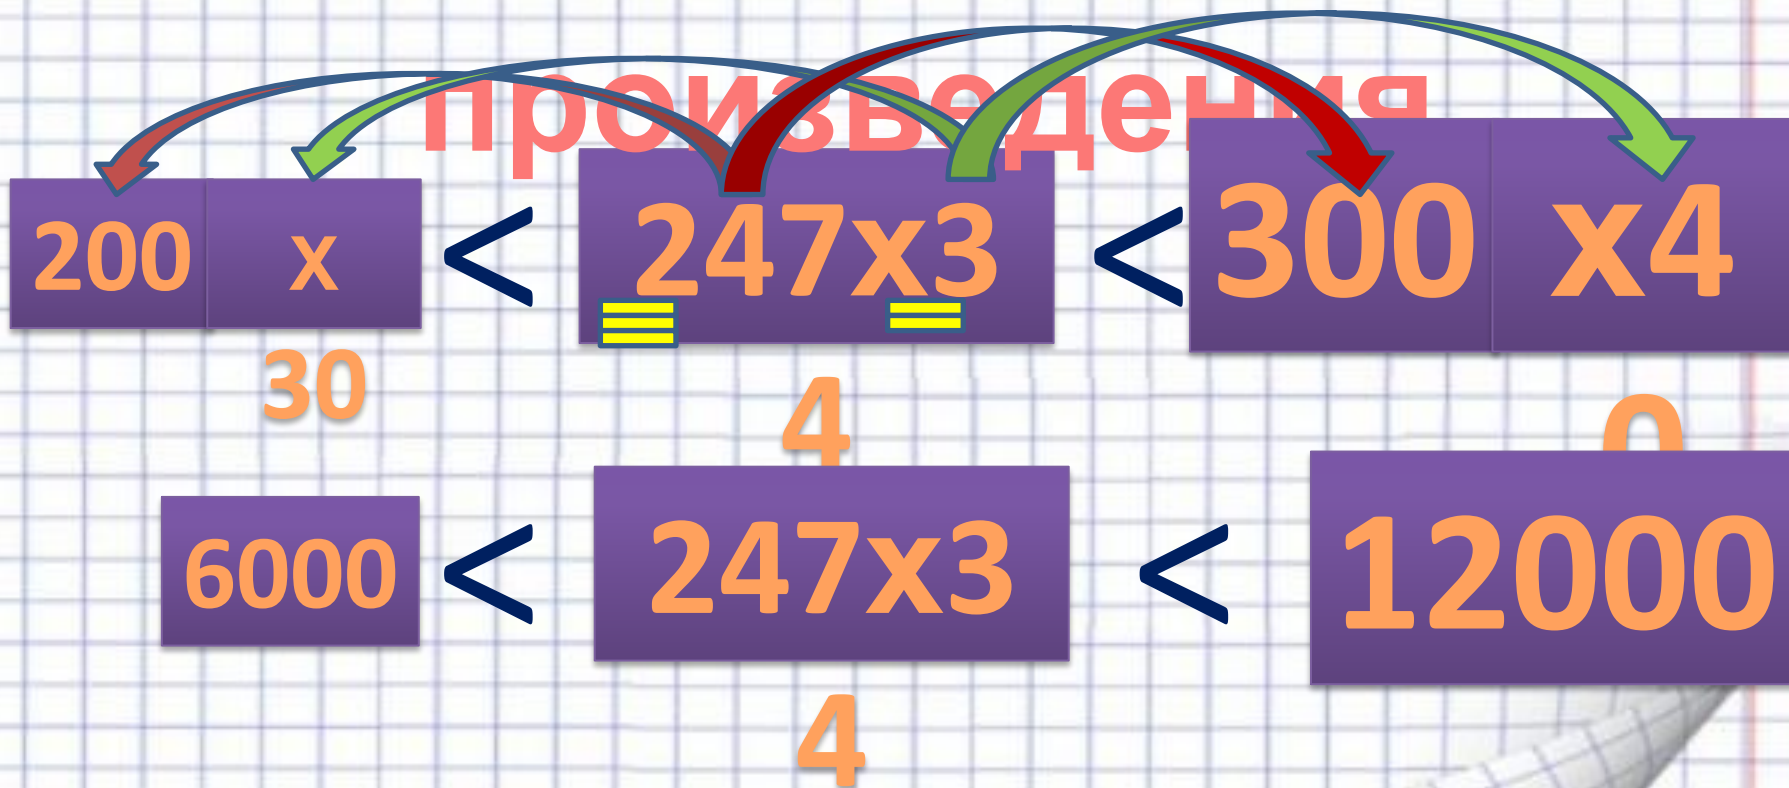

$$800 < 347 + 567 < 1000$$

Diagram illustrating the final estimation of the sum $347 + 567$. The sum is shown to be greater than 800 and less than 1000.

$$100 < 529 - 346 < 300$$

Оценка

частного

$$2000 : 20 < 2145 : 16 < 3000 : 10$$

Diagram illustrating the estimation of the quotient $2145 : 16$. The number 2145 is shown with a red arrow pointing to 2000 and a green arrow pointing to 20. The number 16 is shown with a red arrow pointing to 20 and a green arrow pointing to 10. The result is compared to the other two divisions.

$$100 < 2145 : 16 < 300$$

Diagram illustrating the estimation of the quotient $2145 : 16$. The number 2145 is shown with a red arrow pointing to 2000 and a green arrow pointing to 20. The number 16 is shown with a red arrow pointing to 20 and a green arrow pointing to 10. The result is compared to the other two divisions.
