Таловского района Воронежской области*

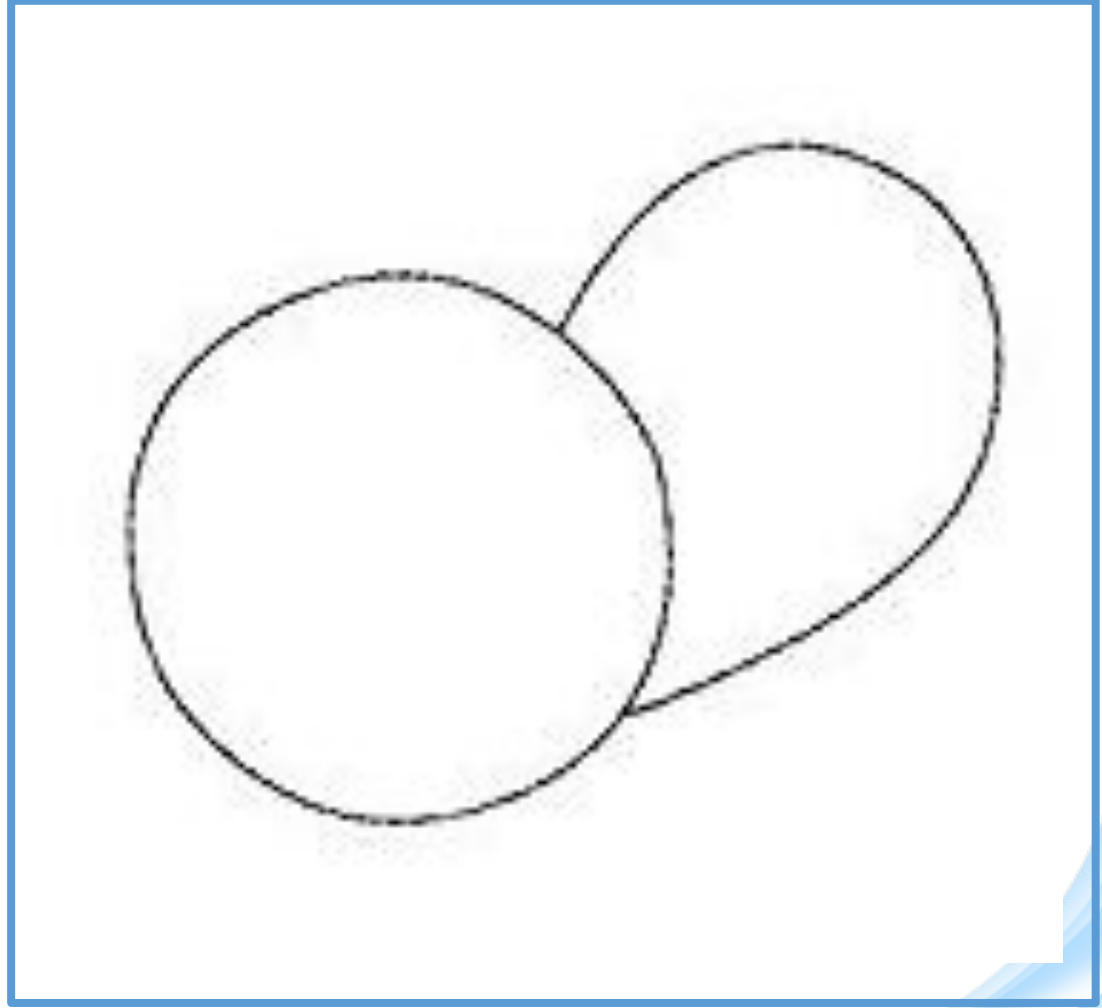

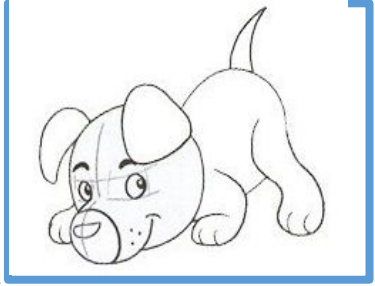

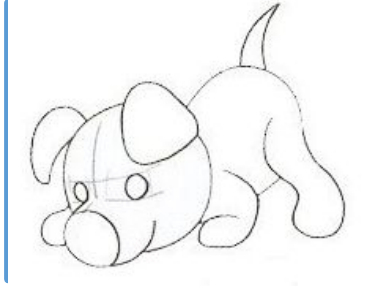

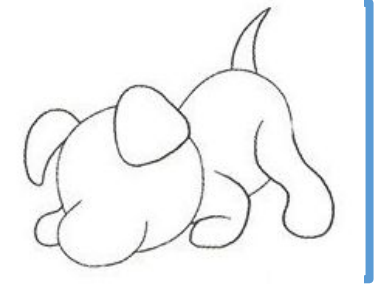

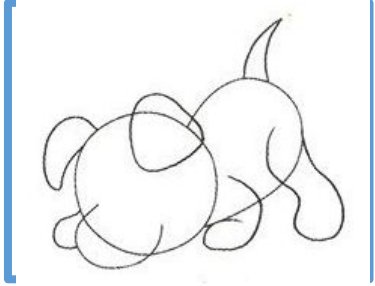

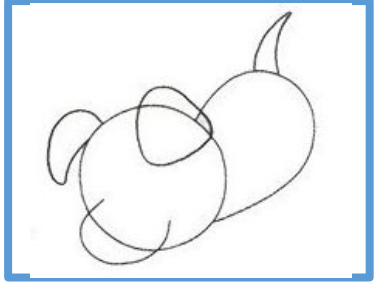

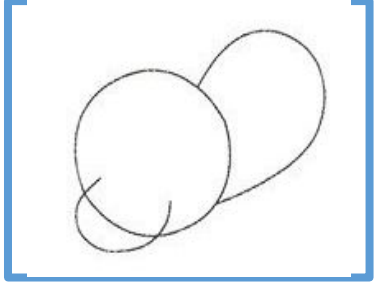

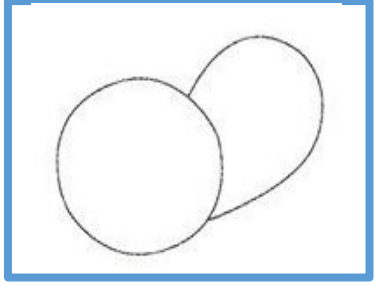

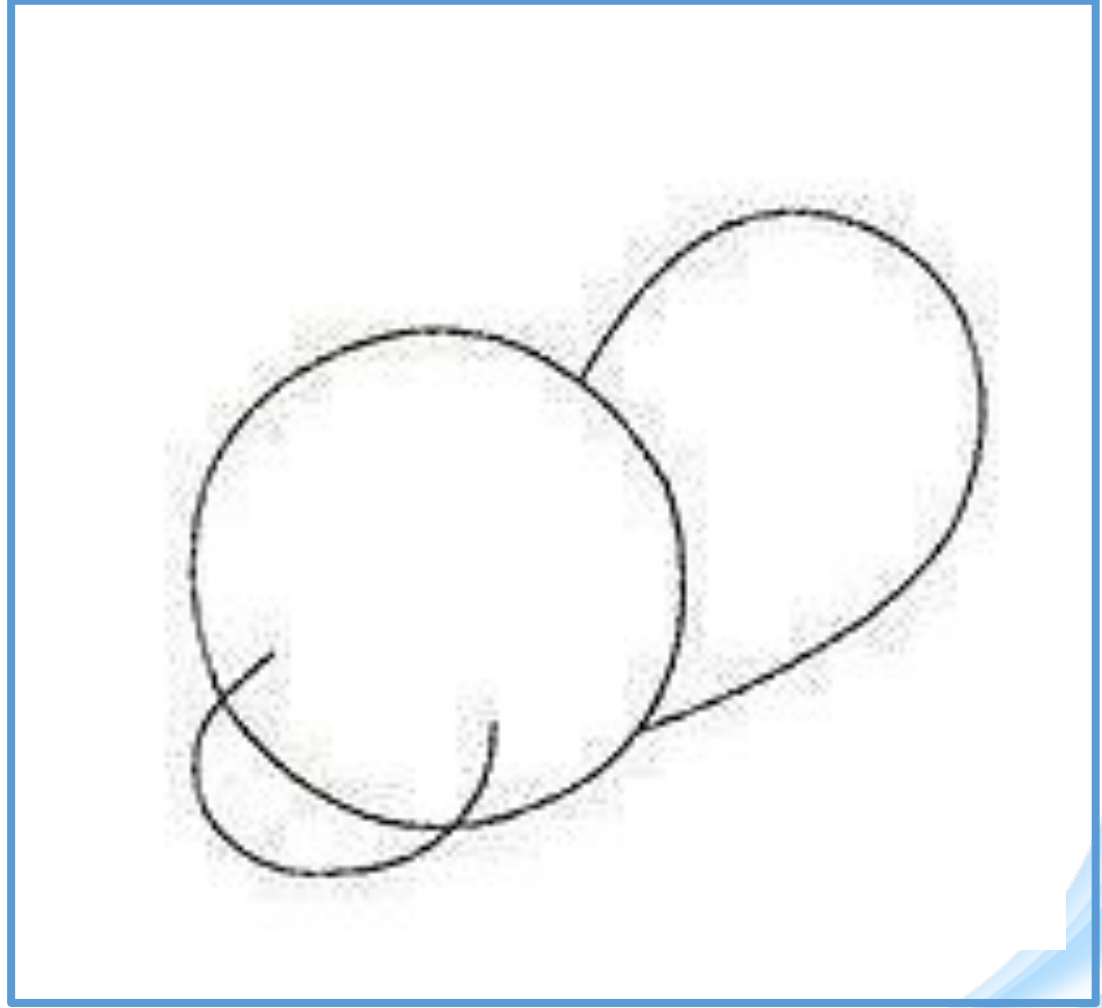

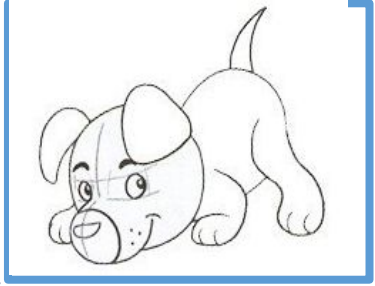

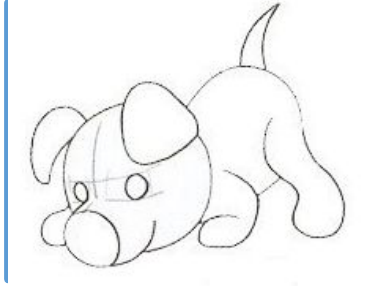

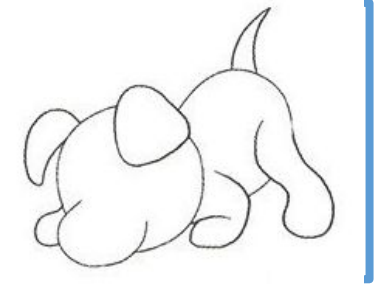

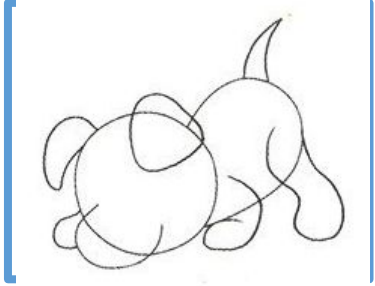

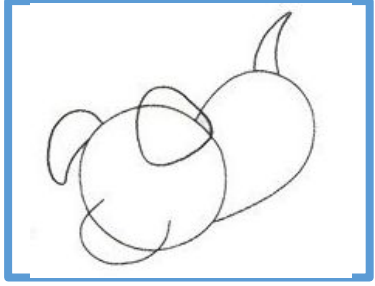

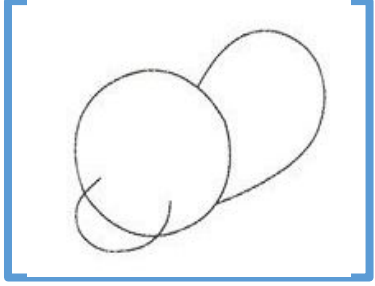

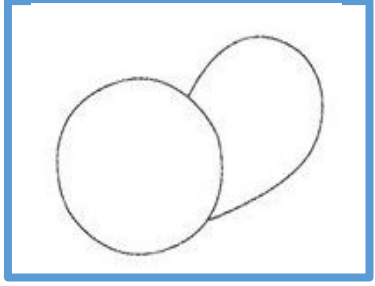

## Дорогой друг!

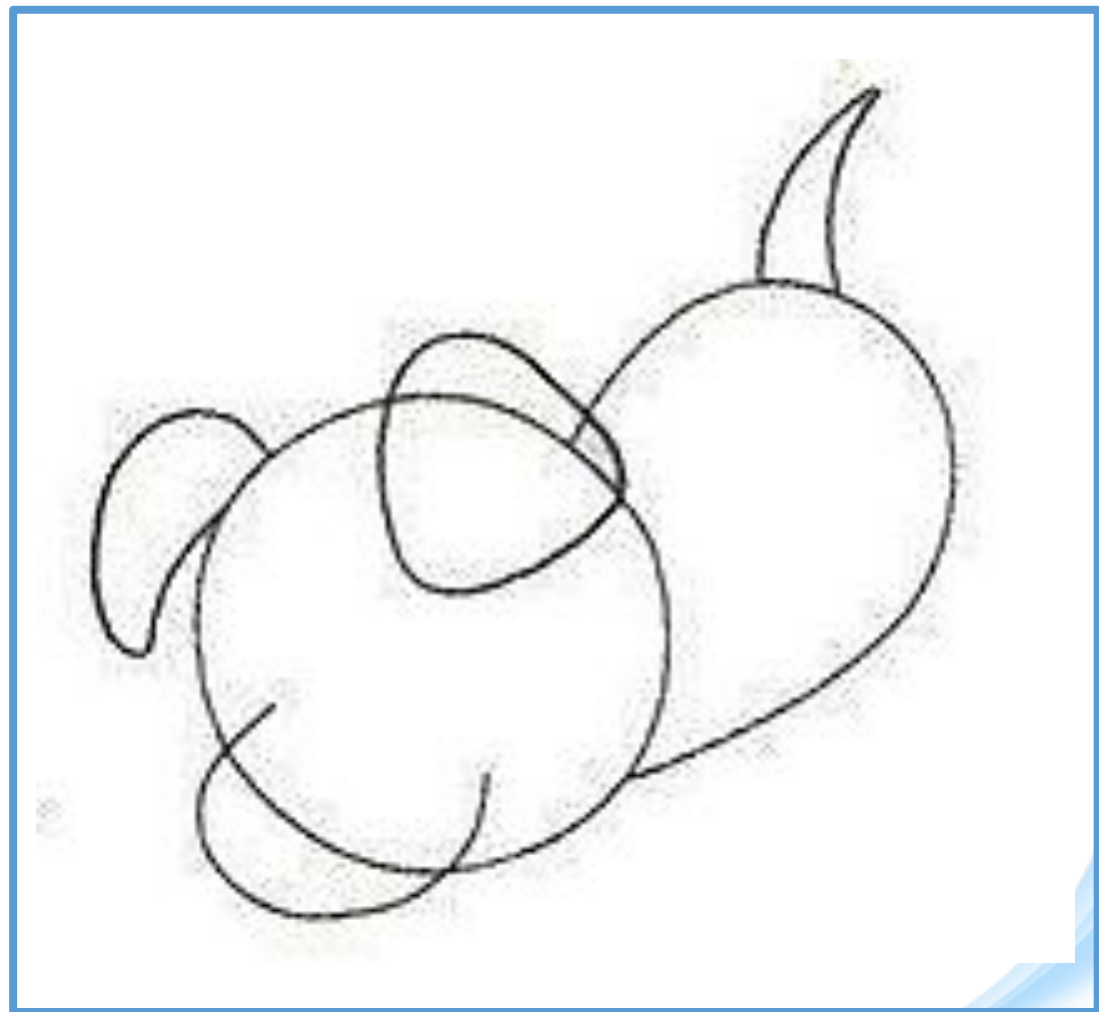

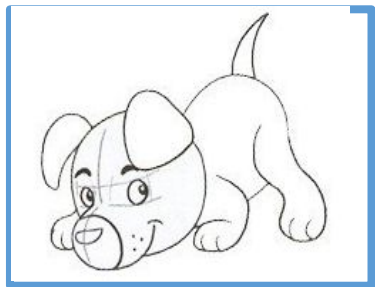

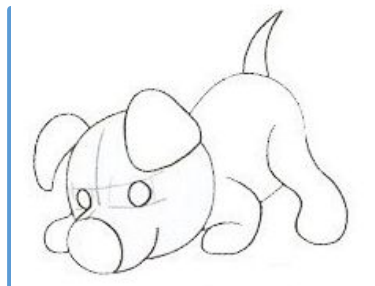

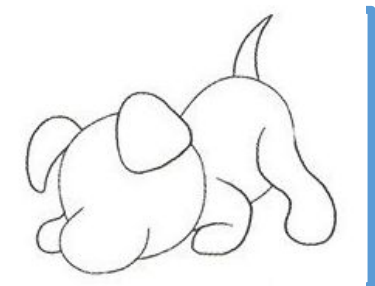

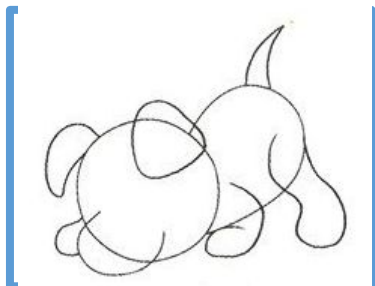

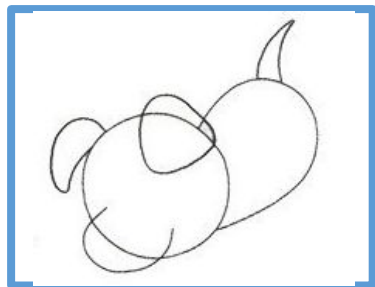

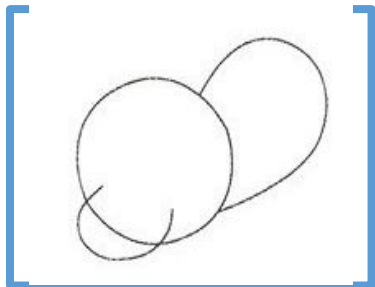

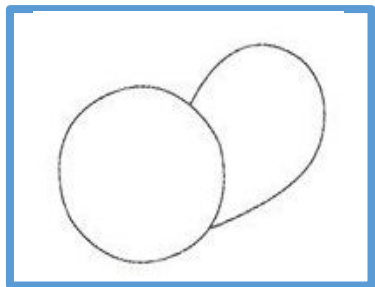

Не знаешь, как нарисовать щенка?  
Не отчаивайся! Возьми в руки карандаш.  
Помни, рисовать нужно плавно, легкими  
штрихами, едва касаясь бумаги, так как  
часть линий  
у нас будет вспомогательными,  
и в конце работы нам придется их стереть.  
Итак, приступим к обучению поэтапного  
рисования.

Для этого нажимай на маленькие  
картинки и рисуй.

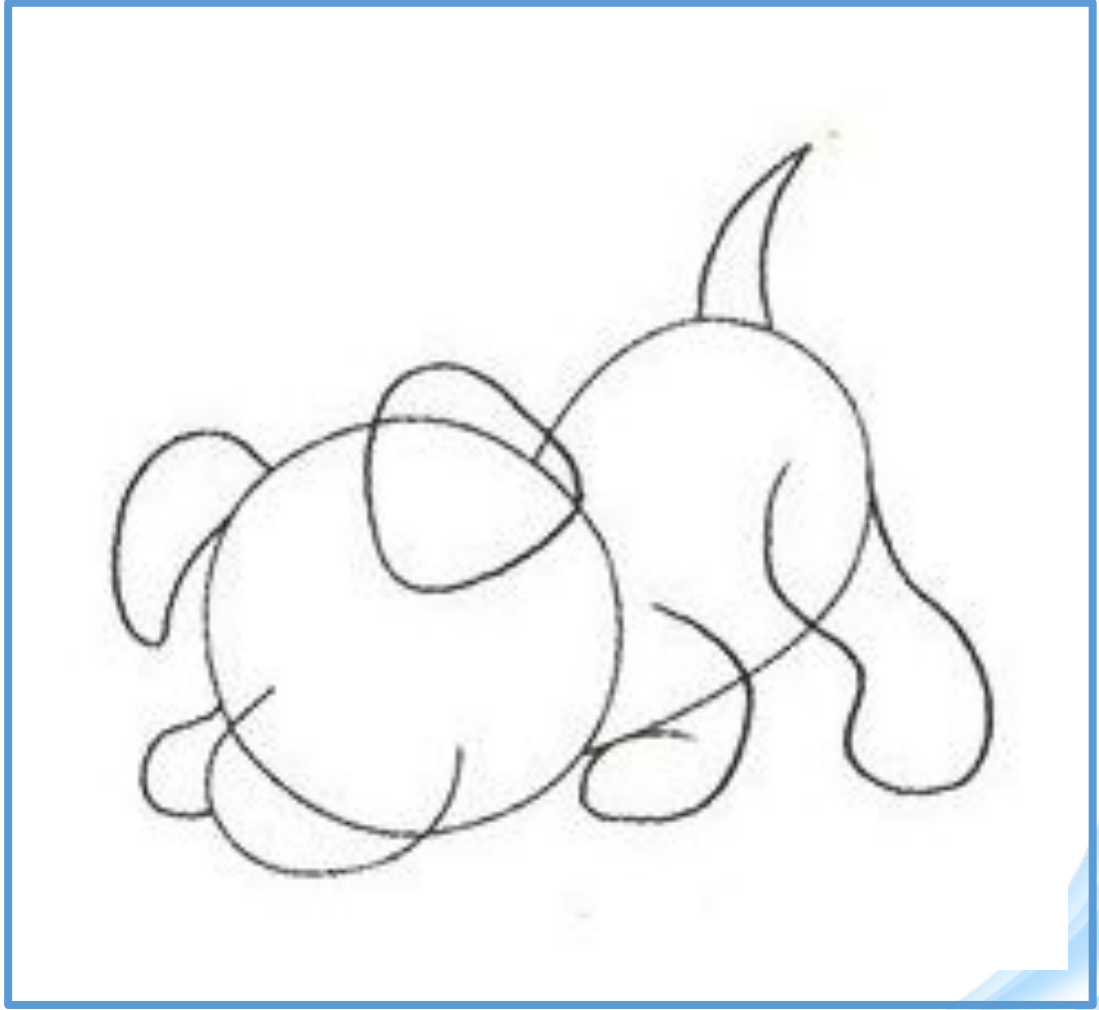

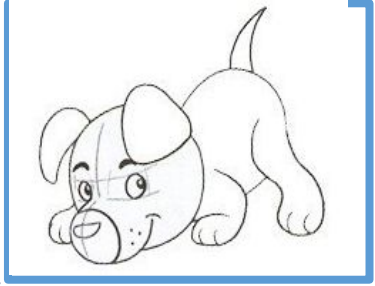

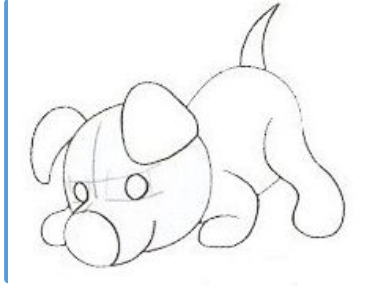

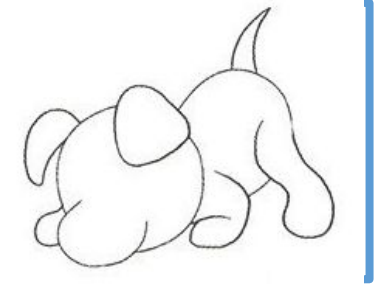

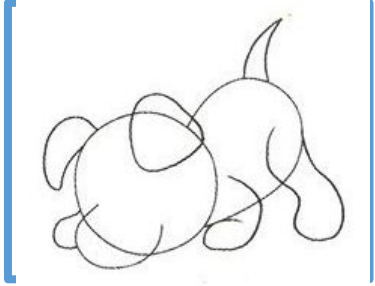

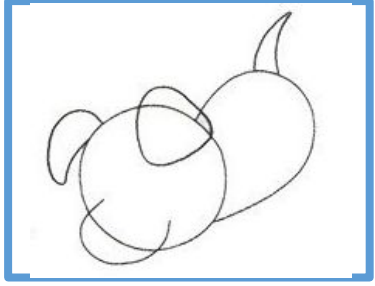

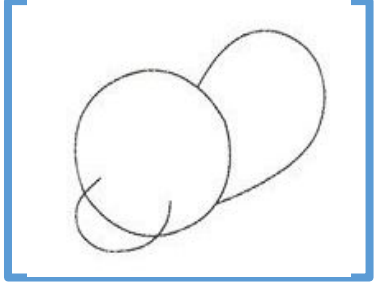

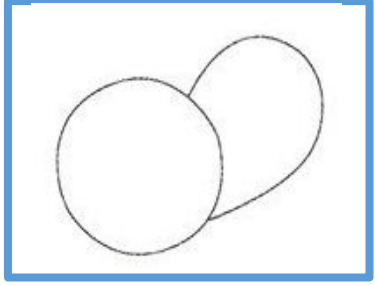

**Желаю удачи!**
