Дорогой друг!

Не знаешь, как нарисовать цыплёнка?

Не отчаивайся! Возьми в руки карандаш. Помни, рисовать нужно плавно, легкими штрихами, едва касаясь бумаги, так как часть линий у нас будет вспомогательными, и в конце работы нам придется их стереть. Итак, приступим к обучению поэтапного рисования. Для этого нажимай на маленькие картинки и рисуй.

Желаю удачи!
