Самарская область

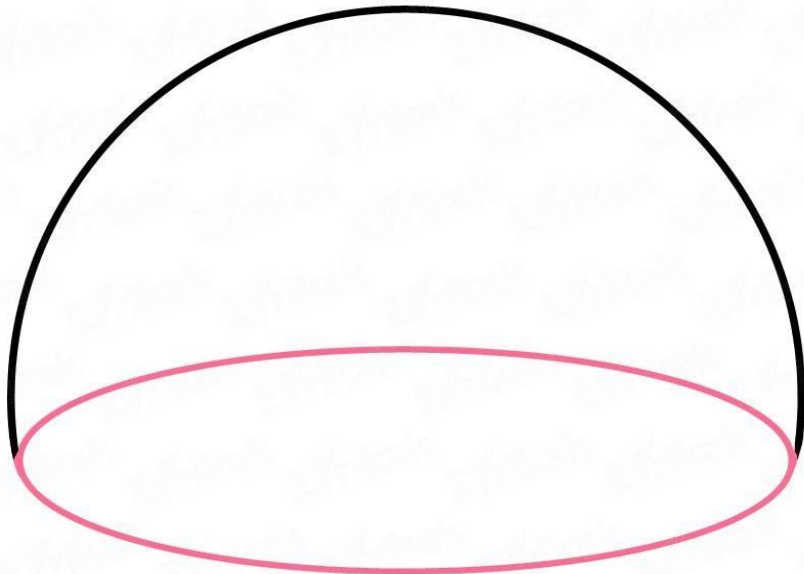

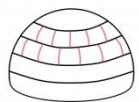

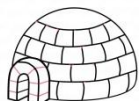

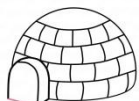

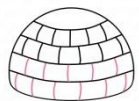

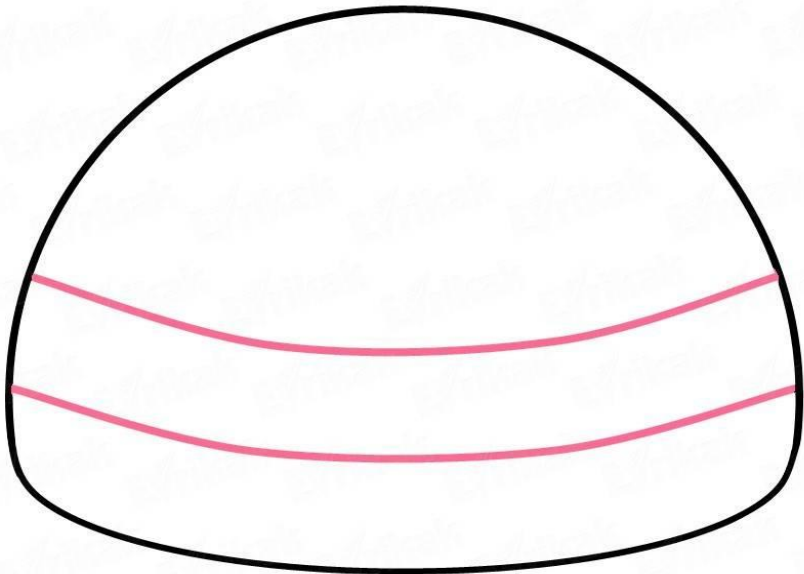

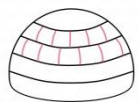

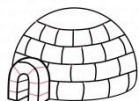

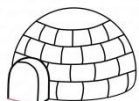

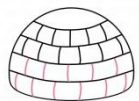

Далеко у полярного круга живёт северный народ – эскимосы. Занимаются они охотой и рыболовством. Этот вид деятельности не позволяет им долго задерживаться на одном месте. Летом они живут в палатках, а зимой строят себе временные дома из снега. Называются такие зимние пристанища – иглу. Строят их из снежных кирпичей и ледяных блоков. Давайте нарисуем иглу.
