International Trade and Market Access Data

Statistics database

Welcome to the WTO statistics database, which allows you to retrieve statistical information in the following presentations.

- The *Trade Profiles* provide predefined information leaflets on the trade situation of members, observers and other selected economies;
- The *Tariff Profiles* provide information on the market access situation of members, observers and other selected economies;
- The *Services Profiles* provide detailed statistics on key infrastructure services (transportation, telecommunications, finance and insurance) for selected economies;
- The *Time Series section* allows an interactive data retrieval of international trade statistics.
