горные хребты

Западного Саяна

# *Хребет Карлыган*

*высота около 2500м.*

# *Лесопасадки на горе "Свелой"*

***Начало  
большого  
Абакана***

An aerial photograph of a mountain range. The foreground and middle ground are dominated by dense, dark green evergreen forests covering steep slopes. In the background, several mountain peaks are visible, some of which are covered in snow or light-colored rock, contrasting with the dark green of the trees. The sky is a pale, hazy blue. The text is overlaid on the image in a large, yellow, stylized font with a black outline.

Хребты Западного

Саяна с высоты
